He went to the half wall separating the kitchen and poured two cups from a pot that looked like it was kept hot and full all the time. "It's hard to describe Andy. There was something very little-boyish about him. A real innocent. Delighted with everything new. It's sad about his back. Real sad." He handed me the cup and returned to the stool. "There was something very secretive about him. Not about his feelings; he was very open about things like that." "Mary, I told you about that already," he complained. It was a gentle complaint and, even more significant he had not objected to the use of his nickname. He was being gentle with the condemned. "We worked on it around the clock. I even managed to get permission to turn over command temporarily. But the mock-ups they made Earthside didn't survive the re-entry. It was the best we could do. I couldn't risk the entire mission on a configuration the people back on Earth wouldn't certify." Hearing my mother had dropped the night before in a winter dance. That block of ice was the coldest and "I stole it from my worst and worst enemy." It's true. The vision of loveliness who opened the door was about forty, almost as slim as Twiggy, but as tall as I. He wore a flowered silk shirt open to the waist, exposing his bony hairless chest, and tight white pants that might as well have been made of Saran Wrap. He didn't say anything, just let his eyebrows rise inquiringly as his eyes flicked down, then up. "Terrific, just terrific," Barry replied with authentic warmth. He'd always scored well at this preliminary stage of basic communication, which was why, at the time, he'd so much resented his examiner's remark about his handshake. In that case, the chief use of cloning would be to reproduce genius..It was the mystery that Nolan had sensed the first time he saw her staring at him across the village compound three days ago. At first he thought she was one of the company people?somebody's wife, daughter, sister. That afternoon, when he returned to the bungalow, he caught her staring at him again at the edge of the clearing. So he asked Moises who she was, and Moises didn't know. Apparently she'd just arrived a day or two before, paddling a crude catamaran downriver from somewhere out of the denser jungle stretching a thousand miles beyond. She had no English, and according to Moises, she didn't speak Spanish or Portuguese either. Or the twig can be grafted to the branch of another tree (of a different variety even), where it can grow and flourish. In either case, it is an organism with a single parent, and sex has had nothing to do with its making. It is because human beings first encountered this asexual form of reproduction, hi connection with fruit trees probably, that such a one-parent organism of non-sexual origin is called a "twig"; that is, "clone." .Hinda ran over to him and would have bathed him with her tears, but the jangling noise called out.If the first trip had been an ordeal, this one was an agony: a frantic thrust through the sultry night on the steaming river, Moises sweating over the throttle as Nolan held Darlene's shuddering shoulders against the straw mattress in the stern of the vibrating launch.
