Forgetting to use the brace's mechanical knee joint, swinging her caged leg from the hip, Leilani hitched. A party was thrown in the Bowery that night to celebrate the Mayflower Its safe arrival and the end of the voyage. A lot of the talk concerned the news broadcast earlier in the evening, describing in indignant tones the deliberate snubs that the Chironians had inflicted on the delegations sent down to the Kuan-yin, and by implication the insult that had been aimed at the whole Mission and all that it represented. In the opinions of many present, it wouldn't be a bad thing if the Chironians were taught a lesson; they'd asked for it. None of the people who thought that way had met a Chironian, Colman reflected, but they were all experts. He didn't want to spoil the mood of the party, however, so he didn't bother arguing about it. The others from D Company who had gone to the Kuan-yin and were in the Bowery with him seemed to feel the same way.. "How-how could you justify it?" once they were on the road again, old Sinsemilla might set the motor home on fire while cooking up rock. You don't want me around... you don't want me around. It's okay." Her voice was staging to rise and fall singsong fashion. "Who says I need anybody to have a good time, anyhow? I'm fine, see. It's okay .... You and lay can go talk about brains and trains." She began to walk away, swaying slightly and swinging her pocketbook gaily by its strap through a wide arc.. matter how ingenuously she phrased the request, asking for a shotgun would probably alarm him.. "Would you expect me to say so if it was?" Colman asked. -. "If you mean systems of beliefs based, despite their superficial appearances to the contrary, on morbid obsessions with death, hatred, decay, dehumanization, and humiliation, then the answer to your question is no," she said, looking at Colman. She glanced at her grandchildren. "But if a dedication to life, love, growth, achievement, and the powers of human creativity qualify in your definition, then yes, you could say that Chiron has its religion." "With who?" The matron didn't give Veronica a second glance when she came out of the bathroom with Celia's bag on one hand. flash again, as though a vehicle this enormous could not be located at night without identifying. "But you haven't. You haven't let it go at all." Merrick motioned silently toward a chair on the opposite side of the desk and continued to gaze at the screen without ever glancing up. Fallows sat. After some ten seconds he began feeling uncomfortable. What had he done wrong in the last few days? Had there been something he'd forgotten?... or failed to report, maybe?... or left with loose ends dangling? He racked his brains but couldn't think of anything. Finally, unnerved, Fallow managed to stammer, "Er .. you wanted to see me, sir." his enemies are not always his friends, certainly not in this case.. "If you say so," Stanislaw said.. her feet with such agitation that she seemed to flail herself erect: skirt flounce churning around her legs., Colman felt something cold deep in his stomach even before his mind had fully registered what Brad had said. "Stern?" he repeated numbly. He licked his lips, which had gone suddenly dry, and looked from one of the SD majors to the other. "You mean he's already in there?" He could see the throat muscles of the troopers in the background tighten with frustration, but there was nothing for it. He had his orders. "On your way," he growled. "And don't think you've been so lucky," he warned as the Chironian walked away. "We've got your face taped. There'll be a next time." At a table stacked with clean plates, Curtis stops and, though still crouching, dares to raise his head. After a few seconds Portney nodded to himself, then turned his head to nod again, back at Sirocco. Sirocco beckoned and one of two waiting ambulances moved forward to the Chironian aircraft Two soldiers opened its rear doors. Four others climbed inside the aircraft and began? moving bodies.
