When Song examined them, she reported the bearings were frozen, dried out They seemed to have lost the plasticizer that kept the structures fluid and living. The water in the pipes was frozen. Though she would not commit herself in the matter, she felt they were dead. In their place was a second network of pipes which wound around the derricks and spread transparent sheets of film to the sunlight, heating the water which circulated through them. The water was being pumped, but not by the now-familiar system of windmills. I am a prisoner here because a skinny grey man stole a map from me and put me in the brig so I could not get it back from him. But why am I the Prince of the Far Rainbow? That is exactly the question asked me a year ago today by a wizard so great and so old and so terrible that you and I need never worry about him. I answered him, 'I am Prince because my father is King, and everyone knows I should be.' Then the wizard asked me, 'Why should you be Prince and not one of a dozen others? Are you fit to rule, can you judge fairly, can you resist temptation?' I had no idea what he meant, and again I answered, 'I am Prince because my father is King.' The wizard took a mirror and held it before me. 'What do you see?' he asked. 'I see myself, just as I should, the Prince of the Far Rainbow,' said I. Then the wizard grew furious and struck the mirror into three pieces and cried, 'Not until you look into this mirror whole again will you be Prince of the Far Rainbow, for a woman worthy of a prince is trapped behind the glass, and not till she is free can you rule in your own land.' There was an explosion, and when I woke up, I was without my crown, lying dressed as you see me now in a green meadow. In my pocket was a map that told me where all the pieces were hidden. Only it did not show me how to get back to the Far Rainbow. And still I do not know how to get home."..Mary Lang let it work itself out, only interfering when it got violent.
