She didn't raise any further objections until he came to Number 8, whereupon she insisted she didn't have any feelings about beets whatsoever. He refused to believe her, and to prove his point he cooked up a quick dinner on her hotplate of Spam and canned beets (it was rather late by then, and they were famished). Before she'd had three mouthfuls, the poem started coming to her, and by the time she'd got it into final shape, five years later, it was far and away the best of the lot..235.She had given a lot of thought to the last emergency, which she still saw as partly a result of her lag in responding. The display showed the target command bunker at the bottom of the gorge, known enemy weapons emplacements as computed from backplots of radar-tracked shell trajectories, and the locations of observation and fire command posts from source analysis triangulations of stray reflections from control lasers.
