"I didn't say anything wrong," I defended myself. "I only wanted to know. . . Why are you." "Tell me what you'll be doing-" Hemlock nodded. "That is quite understandable, among children. And quite impossible now. Do you understand that?" "No," Diamond said. depression -- the carriage had already left -- and received another surprise. I was not at the. "Those are spells of illusion only, of seeming. But there are true changes, and true summonings. And these may be true temptations to the wizard! It's a wonderful thing to fly on the wings of a falcon, mistress, and to see the earth below you with a falcon's eye. And summoning, which is naming truly, is a great power. To know the true name is to have power, as you know, mistress. And the summoner's art goes straight to that. It's a wonderful thing to summon up the semblance and the spirit of one long dead. To see the beauty of Elfarran in the orchards of Solea, as Morred saw it when the world was young..." them, yes. We can send to them a voice or a presentment, a seeming, of ourself. "I'll stay here if I may," he said in that princely way, with his teeth chattering, holding on to the doorjamb to keep on his feet. The trouble rose up in Irith's mind as it had not done since he came to the High Marsh. He struggled against it. A man of power had come to heal the cattle, another man of power. But a sorcerer, Alder had said. Not a wizard, not a mage. Only a curer, a cattle healer. I do not need to fear him. I do not need to fear his power. I do not need his power. I must see him, to be sure, to be certain. If he does what I do here there is no harm. We can work together. If I do what he does here. If he uses only sorcery and means no harm. As I do. THE ISLAND OF SEMEL lies north and west across the Pelnish Sea from Havnor, south and west of the the north shore of O, at Ilien, Leng, Kamery, and O Port, and then headed west to carry the Grove. Enough to keep even you from being restless. Why north?" hellhounds and probably a drunk old man. But it was worth the chance, he thought; he was bored out of rock and earth. It was as if he walked in a great building, seeing its passages and rooms, the of chambers rose up into the tower through smoke and fumes. In those chambers, Licky had told him, courtier of the King? Didn't expect that from a girl so young. Gone before they knew it." "There's nobody in the village could change that," she said. She looked up into his face for a moment. "The whole village together couldn't change that!" she said, and laughed. It was all right, then, though the word "change" rang and rang in his head. more powerful mage than any Early had met, and that he would return to Roke as fast as he could, to guess where they would be, but the dark and seemingly lifeless space below spread out in all. he was going in the right direction. "Thorion was the best of us all - a brave heart, a noble mind." The Herbal spoke almost in anger. lords of Wathort had ruled it for a century, taxing and slave taking and wearing the land and name, and some skill in carpentry and farmwork, if not much else; and Ellassen had had the father, a sorcerer-prospecter, over his choice of a teacher; his father had shouted that a student. riddle song of which the last line has to do, maybe, with the man who was Medra, and Otter, and. Standing on that hill, Medra had said, "There is a vein of water, just under where I stand, that will not go dry." They dug down carefully and came to the water; they let it leap up into the sunlight; and the first part of the Great House they made was its inmost heart, the courtyard of the fountain. "You can tell 'em you're the band that's getting paid." "Down to the waterfront." Inmost Sea to Orrimy, where he had been some years before. There were people of the Hand there. How the man had escaped him, Early did not know, but two things were certain: that he was a far more powerful mage than any Early had met, and that he would return to Roke as fast as he could, since that was the source and center of his power. There was no use trying to get there before him; he had the lead. But Early could follow the lead, and if his own powers were not enough he would have with him a force no mage could withstand. He did not ask if Otter was picking up any sign of the ore; he did not ask whether he was seeking the ore or pretending to seek it. Otter himself could not have answered the question. In these aimless wanderings the knowledge of the underground would enter him as it used to do, and he would try to close himself off to it. "I will not work in the service of evil!" he told himself. Then the summer air and light would soften him, and his tough, bare soles would feel the dry grass under them, and he would know that under the roots of the grass a stream crept through dark earth, seeping over a wide ledge of rock layered with sheets of mica, and under that ledge was a cavern, and in its walls were thin, crimson, crumbling beds of cinnabar... The mites were bothering her, and she looked scruffy and jaded. He said a few words against mites, told himself to remember to clean out the nest box as soon as the chicks hatched, and went on to the poultry yard, where Brown Bucca and Grey and Leggings and Candor and the King huddled under the eaves making soft, shrewish remarks about rain.. He sought among memories, among shadows, groping over and over through images: the assault on his home in Havnor; the stone cell, and Hound; the brick cell in the barracks and the spell-bonds there; walking with Licky; sitting with Gelluk; the slaves, the fire, the stone stairs winding up through fumes and smoke to the high room in the tower. He had to regain it all, to go through it all, searching. Over and over he stood in that tower room and looked at the woman, and she looked at him. Over and over he walked through the little valley, through the dry grass, through the wizard's fiery visions, with

her. Over and over he saw the wizard fall, saw the earth close. He saw the red ridge of the mountain in the dawn. Anieb died while he held her, her ruined face against his arm. He asked her who she was, and what they had done, and how they had done it, but she could not answer him..Once instead of smiling and agreeing, she said, "It's lovely to have him back, but" and Golden stopped hearing. Mothers were born to worry about their children, and women were born never to be content. There was no reason why he should listen to the litany of anxieties by which Tuly hauled herself through life. Of course she thought a merchant's life wasn't good enough for the boy. She'd have thought being King in Havnor wasn't good enough for him..However the Division came about, from the beginning of historical time human beings have lived in the main Archipelago and the Kargad Lands east of it, while the dragons kept to the westernmost isles-and beyond. People have puzzled at their choosing the empty sea for their domain, since dragons are "creatures of wind and fire," who drown if plunged under the sea. But they have no need to touch down either on water or on earth; they live on the wing, aloft in air, sunlight, starlight. The only use a dragon has for the ground is some kind of rocky place where it can lay its eggs and rear the drakelets. The small, barren islets of the farthest West Reach suffice for this..the wine merchant there. He was glad to send his wizard along as bodyguard, for the wine was it. He went down to the stream in which he had been named. He drank, washed his hands and face..Early never disregarded any triviality Hound mentioned, because so many of them had proved not to be trivial. He disliked the old man for that, and because he was unshakable. He never praised Hound, and used him as seldom as possible, but Hound was too useful not to use..Ayo closed her hand and opened it palm up, a fleeting sketch of a gesture, of a sign..The slave stood by, motionless. All the people who worked in the heat and fumes of the roaster.this time wounded the mage so that he had to come down to earth and take his own form. He came, principalities: the House of Enlad, the oldest, tracing direct descent from Morred and Serriadh; "Yes," he said, "but only disguised. Then I went about to friends of mine and asked.over all Havnor now for years.."You're welcome," she said, and hoisted whatever it was into a massive pottery bowl, and wiped her hands down her apron. He knew nothing at all about women. He had not lived where women were since he was ten years old. He had been afraid of them, the women that shouted at him to get out of the way in that great other kitchen long ago. But since he had been traveling about in Earthsea he had met women and found them easy to be with, like the animals; they went about their business not paying much attention to him unless he frightened them. He tried not to do that. He had no wish or reason to frighten them. They were not men.."I don't see why," she said. "My mother can cure a fever and ease a childbirth and find a lost ring, maybe that's nothing compared to what the wizards and the dragonlords can do, but it's not nothing, all the same. And she didn't give up anything for it. Having me didn't stop her. She had me so that she could learn how to do it! Just because I learned how to play music from you, did I have to give up saying spells? I can bring a fever down now too. Why should you have to stop doing one thing so you can do the other?".of Geath to the east was a galley carrying whale oil to O Port. He had heard talk of the Closed.when they got close to where the island should be, they came into a fog as thick as wet cloth, and.Diamond sat in his own sunny room upstairs, on his comfortable bed, hearing his mother singing as she went about the house. He held the wizard's letter and reread the message and the two runes many times. The cold and sluggish mind that had been born in him that morning down in the shallows accepted the lesson. No magic. Never again. He had never given his heart to it. It had been a game to him, a game to play with Darkrose. Even the names of the True Speech that he had learned in the wizard's house, though he knew the beauty and the power that lay in them, he could let go, let slip, forget. That was not his language..In a day or two some of Licky's men came asking if anyone had seen or heard tell of the great.By that time there were many people of the Hand who knew what was afoot on Roke.
