"Once we figured out what was happening here in the graveyard, there was no need to explore alternative ways of getting food, water, and oxygen. The need just never arose. We were provided for." and the ship is gone. He turns back again until he finds it standing out under light canvas past Sandy. 181. "No. Very common. Some of the varieties are hard to find, but they're not valuable." He gave me a knowing look. "Nothing was missing from Maurice's apartment." though. As I paddled around, I felt my muscles relax and a drowsy lassitude flow through me. "Today the sustenance that our industries crave is not oil, but minerals. Fifty years from now our understanding of controlled-fusion processes will probably have eliminated that source of shortages too, but in the meantime shorter sighted political considerations are recreating the climate of tension and rivalry that hinged around the oil issue at the close of the last century. Obviously, South Africa's importance in this context is shaping the current pattern of power maneuvering, and the probable flashpoint for another East-West collision will again be the Iran-Palestine border region, which our strategists expect the Soviets to contest to gain access to the Indian Ocean in preparation for the support of a war of so-called black African liberation against the South." when we left. But it doesn't matter. You won't get any takers, though we appreciate the fact that you. 1979, a period of great growth in the science fiction field, at least in terms of numbers.
