Might Diamond go (as his mother's uncle had gone) to the School of Wizards on Roke Island? Might he (as that uncle had done) gain glory for his family and dominion over lord and commoner, becoming a Mage in the Court of the Lords Regent in the Great Port of Havnor? Golden all but floated up the stairs himself, borne on such visions..He sat up. The dark sea was so quiet that the stars were reflected here and there on the sleek lee side of the long swells. Oared galleys seldom went out of sight of land and seldom rowed through the night, laying to in any bay or harbor; but there was no moorage on this crossing, and since the weather was settled so mild, they had put up the mast and big square sail. Thoreg's high priest, Intathin, opposing any truce or settlement, challenged Erreth-Akbe to a duel in magic. Since the Kargs did not practice wizardry as the Hardic peoples understood it, Intathin must have inveigled Erreth-Akbe into a place where the Old Powers of the earth would nullify his powers. The Hardic Deed of Erreth-Akbe speaks only of the hero and the high priest "wrestling," until:."I think what we have to do," he said without preamble, "is try to hold the fault from slipping.but present, smiling, dancing. Otter pressed rashly forward into Gelluk's mind, seeking his true name. But he did not know where to look or how to look. A finder who did not know his craft, all he could see clearly in Gelluk's thoughts were pages of a lore-book full of meaningless words, and the vision he had described-a vast, red-walled palace where silver runes danced on the crimson pillars. But Otter could not read the book or the runes. He had never learned to read..He no longer kept a cow. He stood looking into the poultry yard, considering. The fox had been visiting the orchard lately. But the birds would have to forage if he stayed away. They must take their chances, like everyone else. He opened their gate a little. In the Archipelago, the lore of the Old Powers was still part of the profound, common basis of thought and reverence. On all the islands, the arts mostly practiced by witches, such as midwifery, healing, animal husbandry, dousing, mining and metallurgy, planting and growing spells, love spells, and so on, often invoked or drew upon the Old Powers. But the learned wizards of Roke had generally come to distrust the ancient practices and made no appeal to the "Powers of the Mother." Only in Paln did wizards combine the two practices, in the arcane, esoteric, and reputedly dangerous Pelnish Lore..in which the name of a thing is the thing..he said, "You work very hard.".. "But witches aren't always chaste, are they? Maybe that's what the Masters are afraid of. Maybe celibacy isn't as necessary as the Rule of Roke teaches. Maybe it's not a way of keeping the power pure, but of keeping the power to themselves. Leaving out women, leaving out everybody who won't agree to turn himself into a eunuch to get that one kind of power ... Who knows? A she-mage! Now that would change everything, all the rules!".. "Come with me to the Grove," she said..unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low..Reluctant, he stepped forward, barefoot and bare-legged; he had rolled up his cloak into his pack..to bond the two kingdoms was broken.. Yet as Dory spoke he saw what the girl saw: a long hill going down into darkness, and across it, as pitiless as any wild animal, terrifying, unpredictable, yet intelligent, sometimes wiser than forest and meadow, but the rain will fall, the rivers will run to the sea. The unstable, mutable, the rocket straight from the forest. I was furious for a moment, but I calmed down; it was not. And the Old Powers of the Earth, which are manifest at Roke Knoll, the Immanent Grove, the Tombs. "And it was useful knowledge," Tern said. "How can people be anything but ignorant when knowledge isn't saved, isn't taught? If books could be brought together in one place..." in Ember's hair. He was in fact a town boy, born in Gont Port. He had said nothing about himself, but Dulce had asked around a bit. The father, a longshoreman, had died in the big earthquake, when Silence would have been seven or eight; the mother was a cook at a waterfront inn. At twelve the boy had got into some kind of trouble, probably messing about with magic, and his mother had managed to apprentice him to Elassen, a respectable sorcerer in Valmouth. There the boy had picked up his true name, and some skill in carpentry and farmwork, if not much else; and Elassen had had the generosity, after three years, to pay his passage to Roke. That was all Dulce knew about him. "Do you trust me, Dragonfly?" "If you wish." Irian was studying the Namer covertly but equally attentively, trying to see if she could tell if he was what he had called a sending or was there in flesh and blood. Nothing about him appeared insubstantial, but she thought he was not there, and when he stepped into the slanting sunlight and cast no shadow, she knew it. Veil came from Thwil Town that morning, bringing them a basket of bread, cheese, milk curds. He was gone several days. When he returned, riding in a horse-drawn cart, he had such a look about him that Otter's sister hurried in to tell him, "Hound's won a battle or a fortune! He's riding behind a city horse, in a city cart, like a prince!" The white-haired man looked at the two women. Other people had come forward, and there was some. Licky walked him out early every morning, and often they wandered about till late afternoon. Licky. "What brought you here, Azver?" the Namer asked. "I've often thought of asking you. A long, long." "But you're right, Herbal, we're out of balance," said Kurremkarmerruk, his voice hard and harsh. "When and where did we begin to go too far? What have we forgotten, turned our back on, overlooked?" School. Her face was windburned and scrubbed clean. Her hair was braided and the braid clubbed. She went to the wall, and it opened like a small bar. She stood in front of the opening. The Doorkeeper came back and said, "Come, Irian, and meet the Masters of Roke." Her heart began to listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and as if he had the power to. Kembermouth, a walled, prosperous port city. They left the carter to his master's business and. All we know of ancient times in Earthsea is to be found in poems and songs, passed down orally for centuries before they were ever written. The Creation of Ea, the oldest and most sacred poem, is at least two thousand years old in the Hardic language; its original version may have existed millennia before that. Its thirty-one stanzas tell how Segoy raised the islands of Earthsea in the beginning of time and made all beings by naming them in the Language of the Making—the language in which the poem was first spoken. It? You learn what you're doing while you do it. No chance to practice. "Ah—there! You feel that?"
