

THE CORPORATE GOVERNANCE DIE INTEGRATION VON REVISION RISIKO UND COM

Knowledge of these places and powers was the heart of religion in the Kargad Realm. In the Archipelago, the lore of the Old Powers was still part of the profound, common basis of thought and reverence. On all the islands, the arts mostly practiced by witches, such as midwifery, healing, animal husbandry, dousing, mining and metallurgy, planting and growing spells, love spells, and so on, often invoked or drew upon the Old Powers. But the learned wizards of Roke had generally come to distrust the ancient practices and made no appeal to the "Powers of the Mother." Only in Palm did wizards combine the two practices, in the arcane, esoteric, and reputedly dangerous Pelnish Lore..Thwil Town, near the Grove and looking to the Knoll. All her will was aimed on walking forward; she had nothing else in her mind, not him, not anything. But she was there bodily with him, and he felt her presence as keenly and strangely as when she had come to his summoning. The rain ran down her naked head and body. He made her stop to put on his shirt. He was ashamed of it, for it was filthy, he having worn it all these weeks. She let him pull it over her head and then walked right on. She could not go quickly, but she went steadily, her eyes fixed on the faint cart track they followed, till the night came early under the rain clouds, and they could not see where to set their feet..When the city was in order again, and the ships had all come back, and the walls were being rebuilt, Ogion escaped from praise and went up into the hills above Gont Port. He found the queer little valley called Trimmer's Dell, the true name of which in the language of the Making was Yaved, as Ogion's true name was Aihal. He walked about there all one day, as if seeking something. In the evening he lay down on the ground and talked to it. "You should have told me, I could have said goodbye," he said. He wept once, and his tears fell on the dry dirt among the grass-stems and made little spots of mud, little sticky spots..She stretched, feeling the ease of her body in the warmth, and her mind drifted back to Ivory. She had had no one in her life to desire. When the young wizard first came riding by so slim and arrogant, she wished she could want him; but she didn't and

couldn't, and so she had thought him spell-protected. Rose had explained to her how wizards' spells worked 'so that it never enters your head nor theirs, see, because it would take from their power, they say'. But Ivory, poor Ivory, had been all too unprotected. If anybody was under a spell of chastity it must have been herself, for charming and handsome as he was she had never been able to feel a thing for him but liking, and her only lust was to learn what he could teach her..roads, but here the streams ran slow among the pastures..thundered; she fell flat on the ground..told in the Havnorian Lay. Sorcery included both base crafts as defined by Halkel (finding, mending, dowsing, animal healing, etc.) and some high arts (human healing, chanting, weatherworking). A student who showed a gift for sorcery and was sent to Roke for training would first study the high arts of sorcery, and if successful in them might pursue his training in the art magic, especially in naming, summoning, and patterning, and so become a wizard.."Dragons have been seen flying above the Inmost Sea.
