

GRIECHISCHE VISUELLE POESIE VON DER ANTIKE BIS ZUR GEGENWART

Handing Angel to Grace, Lipscomb said, "I own some investment properties. There's a two-bedroom unit available in one of them." He hadn't killed this one, of course. A traffic accident. Wasn't that what Vanadium had said? Ten months ago, following tendon surgery for a leg injury, Seraphim had been an outpatient at the rehab hospital where Junior worked. She was scheduled for therapy three days a week. This morning he had changed the sheets. Naomi's scent was no longer with him in the bedclothes. He had met her in a university adult-extension course titled "Increasing Self-Esteem Through Controlled Screaming." Participants were taught to identify harmful repressed emotions and dissipate them through the authentic vocal imitations of a variety of animals. Behind them, two shots roared, and Paul knew that the reverend was no longer of this world. Weatherworkers used to carry a leather sack in which they said they kept the winds, untying it to let a fair wind loose or to capture a contrary one. Maybe it was only for show, but every weatherworker had a bag, a great long sack or a little pouch. The hateful window. The hateful, frozen window. Celestina wrenched on the crank with all of her strength, and felt something give a little, wrenched, but then the crank popped out of the socket and rapped against the sill. Earthquake weather. Southern Californians had many definitions of that term, but Edom knew he was right this time. Thunder would roll again soon, but it would arise from underfoot. He needed to keep moving, conduct the search, find the watch, and get the hell out of here, but he couldn't stop staring at the musician. Something about the cadaver made him nervous—aside from the fact that it was dead and disgusting and, if he was caught with it, a one-way ticket to the gas chamber. "I'm afraid you're wrong." When Tom opened his left hand, the palm lay as bare as that of a blind beggar in a country of thieves. Meanwhile, his right hand had tightened into a fist again. "This meeting of the North Pole Society of Not Evil Adventurers is officially closed." Choking fumes, blinding soot. A licking heat told him that slithering fire had followed the smoke up the stairs and now coiled perilously close in the murk. Aware of the dangers of dehydration, he drank a bottle of water and put two half-gallon containers of Gatorade in the Suburban. Thus armored, he at last arrived in the city of Sacramento, an hour before dawn. Sacramento, which means "sacrament" in Italian and in Spanish, calls itself the Camellia Capital of the World, and holds a ten-day camellia festival in early March—already advertised on billboards now in mid-January. The camellia, shrub and flower, is named for G. J. Camellus, a Jesuit missionary who brought it from Asia to Europe in the eighteenth century. He picked up Angel, picked up Barty. "Hold on." He carried them out of the room, down the stairs, out of the house, to the yard under the great tree, where they would wait for the police, and where they would not see Jacob's body when the coroner removed it by way of the front door. By the time he got back to Spruce Hills, the early night had fallen. The pearly, waxing moon floated over a town that glimmered mysteriously among its richness of trees, flickering and shimmering as though it were not a real town, but a dreamland where a multitude of Gypsy clans gathered by the lambent amber light of lanterns and campfires. To prove himself, he read a little of Dickens when she requested it, a passage from *Great Expectations*. Then a passage from Twain. He would come. She knew. She had always known, but had half forgotten. There was something special about Angel, and because of that specialness, she lived under a threat as surely as the newborns of Bethlehem under King Herod's death decree. Long ago, Celestina glimpsed a complex and mysterious pattern in this, and to the eye of the artist, the symmetry of the design required that the father would sooner or later come. A calico cat appeared at Tom's side, running, pacing him. Cats were witches' familiars. Good luck or bad, this cat? Another of Junior's self-improvement projects, since moving to California, was to become a knowledgeable gourmet, also a connoisseur of fine wines. San Francisco was the perfect university for this education, because it offered innumerable world-class restaurants in every imaginable ethnic variety. than the left: slack yet with a pulled look. The left eyelid drooped. That side of her. Junior was tempted to experiment with the controls. Maybe other messages were recorded on the machine. Listening to them would be delicious—even if every one of them turned out to be as meaningless to him as Max's—a little like browsing through a stranger's diary. Thrusting his finger toward the table with each repetition of the word, Barty happily insisted, "Pie, pie, pie, pie, pie, pie, pie, pie." "You're better at concentrative meditation without seed than anyone I've ever known, better than me. That's why you, especially, should never undertake a long session unsupervised," Chicane scolded. "At the very least, the very least, you should use your electronic meditation timer. I don't see it here, do I?" If her beautiful son was to be a prodigy of any kind, she would thank God for his talent and would do anything she could to help him achieve his destiny. They introduced themselves as Knacker, Hisscus, and Nork, but Junior didn't bother to associate names with faces, partly because the men were so alike in appearance and manner that their own mothers might have had difficulty figuring out which of them to blame for never calling. Besides, he was still tired from his recent ramble through the hospital—and unnerved by the thought of some baleful-eyed Bartholomew prowling the world in search of him. Few people will spend the greater part of their youth in school, struggling to obtain the education required for a medical specialty, unless they have a passion to heal. Franklin Chan was a healer, whose passion was the preservation of vision, and Agnes could see that his anguish, while a pale reflection of hers, was real and deeply felt. Otter hesitated and said, "Yes." Initially, when told that his patient was a Negro, Junior had been reluctant to serve as her physical therapist. Her program of rehab required mostly structured exercise to restore flexibility and to gain strength in the affected limb, but some massage would be involved, as well, which made him uncomfortable. Flush with the promise of their engagement, still excited by the success at the gallery, with Angel exuberant in spite of the hour and Orenergized, he was amazed that they had made the transfer of the little red whirlwind from house to Buick to house with nothing else forgotten other than one purse. Celie called it ballet, but Wally thought that it was merely momentary order in chaos, the challenging-joyous-frustrating-delightful-exhilarating chaos of a life full

of hope and love and children, which he wouldn't have traded for calm or kingdoms.. "Some places, it has to be like that." some places it has to be that your eyes are okay?" As Junior was about to knock again, the door flew inward, and over Sinatra having fun with "When My Sugar Walks Down the Street," Victoria said, "You're early, I didn't hear your car--" She was speaking as she pulled the door open, and she cut herself off in midsentence When she stepped up to the threshold and saw who stood before her.. Junior levered up, scrambled up, vaulted over, and crashed into the deep bin, with every intention of landing on his feet. But he overshot, slammed his shoulder into the back wall of the container, fell to his knees, and sprawled facedown in the trash.. Instead of staring at Barty directly, he watched Angel as she studied the eyeless boy. She had exhibited no horror at the concave slackness of his closed lids, and when one lid fluttered up to reveal the dark hollow socket, she hadn't shown any revulsion. Now she moved closer to Barty's chair, and when she touched his cheek, just below his missing left eye, the boy didn't flinch in surprise.. Havnor Great Port is the city at the heart of the world, white-towered above its bay; on the tallest tower the sword of Erreth-Akbe catches the first and last of daylight. Through that city passes all the trade and commerce and learning and craft of Earthsea, a wealth not hoarded. There the King sits, having returned after the healing of the Ring, in sign of healing. And in that city, in these latter days, men and women of the islands speak with dragons, in sign of change.. He tried to lean back as he dropped, with the hope that he would fall under her, providing cushion if they met with sidewalk instead of lawn.. Edom removed two of the pies from the table and put them on the counter near the ovens.. Hound smiled. "They haven't undone what you did yet, either," he said. "Old Whiteface was crawling all over her yesterday, growling and muttering. Ordered the helm replaced." He meant Losen's chief mage, a pale man from the North named Gelluk, who was much feared in Havnor.. The Beatles began singing the number-one song, "I Feel Fine," as Junior turned off the county highway and followed the lake road northeast around the oil-black water. They had two titles in the American top five. In disgust, he switched off the radio.. At dawn, he and his mother went down to the sea, to watch the rolling waves filigreed with foam and gilded with the molten gold of morning sun, to see the kiting gulls and to scatter bread that brought the winged multitudes to earth.. The sudden change of subject, from the airliner crash to Phimie, confused Celestina.. The silence on the line was not merely that of a caller holding her tongue. It was abyssal and perfect, as no silence on a telephone ever can be, without the faintest hiss or crackle of static, no hint of breathing or. "I'm sure you would be, yes, but I'm afraid I don't have the patience to teach, I'm a performer, not an instructor. I suppose I could give you the name of a good teacher." Dishes dried and put away, Jacob retired to the living room and settled contentedly into an armchair, where he would probably become so enthralled with his new book of dam disasters that he would forget to make luncheon sandwiches until Barty and Angel rescued him from the flooded streets of some dismally unfortunate town.. The dying-dove hands fluttered down Junior's arms, plucking feebly at his leather coat, and at last hung limp at Neddy's sides.. Koko skidded to a halt, perplexed, looked left, looked right, floppy ears lifted slightly to catch any sound of Mistress Mary.. From, the darkness of his room, Barty now spoke the words for which Agnes had been waiting, his whisper soft yet resonant in the quiet house: "Good-night, Daddy." He spent the afternoon with her and stayed for dinner. He ate at her bedside, feeding both himself and her, balancing the progress of his meal with hers, so they finished together. He'd never fed her before, yet he wasn't awkward with her, or she with him, and later what he remembered of dinner was the conversation, not the logistics.. By the grace of Caesar Zedd and Remy Martin, Junior eventually slipped into undulant currents of sleep, and as he drifted away on those velvet tides, he took some solace from the thought that come what may, December 29 would be a better day than December 28.. The walls were barren. The only art in these rooms was a single sculpture. Junior was taking university extension courses in art appreciation and almost daily haunting the city's countless galleries, constantly deepening and refining his knowledge. He intended to refrain from acquiring a collection until he was as expert on the subject as any director of any museum in the city.. Ever the romantic, he wanted to surprise her. Voila! Flowers, wine, and moi. Since their electrifying connection in the hospital, she had been yearning for him; but she wouldn't expect a visit for a few weeks yet. He was eager to see her face brighten with delight.. As he stepped out of the street, Don't Walk shortened to Walk, and when he checked for pursuit, he found it. Here came Vanadium, who would have been shivering in want of a topcoat if his flesh had been real.. Slow deep breathing forgotten, gasping like a drowning swimmer, a sudden sweat dripping from his brow, Junior used one foot to prod the fallen man.. The mound of earth beside the grave had been disguised by piles of flowers and cut ferns. The suspended casket was skirted with black material to conceal the yawning grave beneath it.. Eleven years later, a few months after marrying Agnes, Joey mysteriously invited Edom to accompany him on "a little drive," and took his bewildered brother-in-law to a nursery. They returned home with fifty pound bags of special mulch, jars of plant food, and an array of new tools. Together, they stripped the sod from the side yard, turned the soil, and prepared the ground for the rich variety of hybrid starter plants that were delivered the following week.. "What was it like, Enoch? Did you look into her eyes when you pushed her?" Vanadium's uninflected monologue was like the voice of a conscience that preferred to torture by droning rather than by nagging. "Or doesn't a woman-killing coward like you have the guts for that?" Because of her occasional bad dreams, Angel chose to sleep now and then in her mother's bed instead of in her own room, and this was one of those nights.. Ordinarily, a child of three would be too young to learn the use of a blind man's cane, but Barty wasn't ordinary. Initially, no cane was available for such a small child, so Barty began with a yardstick sawn off to twenty-six inches. By his last day, they had for him a custom cane, white with a black tip; the sight of it and all that it implied brought tears to Agnes just when she thought her heart had toughened for the task ahead.. "What wound? Junior wanted to ask, but he recognized bait when he heard it, and he did not bite.. To Nolly, Kathleen said, "This is why I married you. To be around talk like this." Nolly shook his head, setting a cotillion of warts and moles adance on his pendulous cheeks. "Ask any

adoptee who, as an adult, has tried to team the names of his real parents. Easier to drag a freight train up a mountain by your teeth." They were driven to St. Mary's by Detective Bellini in a police sedan. Tom Vanadium-a friend of her father's whom she had met a few times in Spruce Hills, but whom she didn't know well--literally rode shotgun, tensed to react, wary of the occupants of other vehicles on. On the morning of November third, Barty asked Maria to inquire of Agnes what she would like to have read to her. "Then when she answers you, just turn and leave the room. I'll take it from there." "My scar," he confessed, "is inexperience. For a man my age, Agnes, I'm in some ways unbelievably innocent. I wouldn't trade the years with Perri for anything or anyone, but intense as it was, our love didn't include ... Well, I mean, you may find me inadequate." Nevertheless, being cautious even as he seized the day--or the night, in this case--he parked a short distance from his destination, on a parallel street. He walked the last three blocks..Walking was part of a fitness regimen that he took seriously. He would never be called upon to save the world, like the pulp heroes in the tales he enjoyed; however, he had solemn responsibilities he was determined to meet, and to do so, he must maintain good health..Maria Elena Gonzalez--such an imposing figure in spite of her diminutive stature that even three names seemed insufficient to identify her--was still present. Although the crisis had passed, she wasn't ready to trust that nurses and doctors, by themselves, could provide Agnes with adequate care..His Country Squire laden with cookies, plum cakes, homemade caramel corn with almonds, and gifts, Edom drove directly home from Obadiah Sepharad's place, which had been their final stop. He roared away as if trying to outrun tornadoes and tidal waves..As Celestina settled on the sofa with the phone in her lap, hesitating to dial until she worked up a bit more courage, Angel said to Tom, "So what happened to your face?" The right side of the girl's face appeared to be more strongly affected by gravity. Grace, having just finished washing a sinkful of dishes, stood monitoring the application of the icing and drying her hands, when the telephone rang. She picked it up, and as she said, "Hello," the front of the house exploded..As he rose from his chair, Barty began to reacquaint himself with the feeling of all the ways things are, began to bend his mind around the loops and rolls and tucks of reality that he had perceived on the roller coaster that day, and by the time he had followed Angel and Tom to the bottom of the stairs and into the oak-shaded yard behind the house, the day faded into view for him..Because you can walk in the rain without getting wet, because you walk in SOME OTHER PLACE, and God knows where that place is or whether YOU COULD GET STUCK THERE somehow, get stuck there AND NEVER COME BACK, and if you can do this, there's surely other impossible things you can do, and even as smart as you are, you can't know the dangers of doing these things--nobody could know--and then there are the people who'd be interested in you if they knew you can do this, scientists who'd want to poke at you, and worse than the scientists, DANGEROUS PEOPLE who would say that national security comes before a mother's rights to her child, PEOPLE WHO MIGHT STEAL YOU AWAY AND NEVER LET ME SEE YOU AGAIN, which would be like death to me, because I want You to have a normal, happy life, a good life, and I want to protect you and watch you grow UP and be the fine man I know you will be, BECAUSE USE I LOVE YOU MORE THAN ANYTHING, AND YOU'RE SO SWEET, AND YOU DON'T REALIZE HOW SUDDENLY, HOW HORRIBLY, THINGS CAN GO WRONG.. "Well, as years pass, they're going to be a financial burden, if nothing else, so I'm glad I've got a little surprise for you." Max hung up. The Ansaphone made a series of small robot-mouse noises and then fell silent..Finally, he said, "What I did was grab the shovel, dig a hole really fast, and bury Muffin in it up to her neck--just until she calmed down." On Tuesday, January 2, Junior met with the drug dealer who had introduced him to Google, the document forger, and he arranged to purchase a 9-mm handgun with custom-machined silencer..Instead, he sat in the breakfast nook with his phone books and resumed the grueling search for Bartholomew..Freed for the moment from the need to be strong for her sleeping Angel or for Wally, Celestina turned to Tom Vanadium, saw in his gray eyes both the sorrow of the world and a hope to match her own, saw in his ruined face the promise of triumph over evil, leaned against him for support, and finally dared to cry..Before he taught himself to read books, he also taught himself numbers, and then how to read a clock. The significance of time had a more profound impact on him than Agnes could understand, perhaps because acquiring an awareness of the infinite nature of the universe and the finite nature of each human life--and fully understanding the implications of this knowledge--takes most of us till early adulthood if not later, whereas for Barty, the vast glories of the universe and the comparatively humble nature of human existence were recognized, contemplated, and absorbed in a matter of weeks..Caught unaware by the joke, she laughed. "Well, I'm glad to know I'm good for something. Is there maybe a special pie you'd like me to make today?" "Three hundred and ninety-six of the dead were children under the age of ten," Jacob continued. "A passenger train was tumbled off the tracks, killing twenty. Another train with tank cars got smashed around, and oil spilled across the flood waters, ignited, and all these people clinging to floating debris were surrounded by flames, no way to escape. Their choice was being burned alive or drowning." Occasionally, when Junior returned home from a day of gallery hopping or an evening at a restaurant, Industrial Woman--the artist's title--scared away his mellow mood. More than once, he'd cried out in alarm before realizing this was just his prized Poriferan..Suitcases seemed to be missing. Some clothes, as well. Could mean a weekend vacation..She switched off the hall light and stood at the half-open door, listening, waiting.. "Oh, sure, I know," Mary said. "But when it's a bad place, you feel it before you go in. So you just go around to the next place that isn't bad. No big deal." "Many claimed Maharion's throne, but none could keep it, and the quarrels of the claimants divided all loyalties. No commonwealth was left and no justice, only the will of the wealthy. Men of noble houses, merchants, and pirates, any who could hire soldiers and wizards called himself a lord, claiming lands and cities as his property. The warlords made those they conquered slaves, and those they hired were in truth slaves, having only their masters to safeguard them from rival warlords seizing the lands, and sea-pirates raiding the ports, and bands and hordes of lawless, miserable men dispossessed of their living, driven by hunger to raid and

rob." "Where did you hear that expression," she demanded, though she couldn't conceal her amusement. Junior put the money on the desk. "Then get into the records of Family Services." Still looming over her, he snatched the pad out of her hands and examined the sketch. "Where would you have seen this?" When she tried to speak to him, she could no more easily raise her voice than she could extend a hand to him. To the open casement window, into the men's room. Still seething with rage. Angrily cranking shut the twin panes while lazy tongues of fog licked through the narrowing gap. He remembered standing in the cemetery, downhill from Seraphim's grave-although at the time he'd known only that it was a Negro being buried, not that it was his former lover-and thinking that the rains would over time carry the juices of the decomposing Negro corpse into the lower grave that contained Naomi's remains. Had that been a half-psycho moment on his part, a dim awareness that another and far more dangerous connection between dead Naomi and dead Seraphim had already been formed? He had been walking ever since, two and a half years, with brief respites in Bright Beach. Maybe every accidental death was suspicious to Vanadium. His obsessive hounding of Junior might be his standard operating procedure. "That's exactly how I hoped he would be." Relieved, he followed Agnes to the living room. "Listen, Aggie, you know, I don't have anything against Jacob, but-" A siren in the city wailed toward St. Mary's. An ambulance. Through streets bustling with hope, always this lament for the dying. He hit Celestina with the big question, the huge question, just as she paused in her babbling to suck in a deep breath, the better to spout even more nonsense, whereupon this panicky inhalation caught in her breast, caught so stubbornly that she was certain she would need the attention of paramedics to start breathing again, but then Wally popped open the box, revealing a lovely engagement ring, the sight of which made the trapped breath explode from her, and then she was breathing fine, although snuffling and crying and just generally a mess. "I love you, Wally." Caution discarded, Junior went inside, for the same reason that a dedicated opera aesthete might once a decade attend a country-music concert: to confirm the superiority of his taste and to be amused by what passed for music among the great unwashed. Some might call it slumming. Junior poured half the vodka over the corpse, splashed some around other parts of the kitchen, and spilled the last on the cook top, where it trickled toward the active burner. This was not an ideal accelerant, not as effective as gasoline, but by the time he threw the bottle aside, the spirits found the flame. He slid his plate aside. From a pocket, he withdrew a quarter, which always served him as well with children as with murderers. Yes, he suspected that he would require a great deal of rest to prepare himself for this vixen. Even in her loose white uniform and stodgy rubber-soled shoes, she was an incomparably erotic figure. She would be a lioness in bed. Instead, trying not to let Barty see the depth of her concern, she told him to get his jacket from the front closet, and she got hers, and leaving the buttermilk-raisin pies unfinished, she drove him to the doctor's office, because he was her reason to breathe, the engine of her heart, her hope and joy, her everlasting bond to her lost husband. Dr. Joshua Nunn was only forty-eight, but he had appeared grandfatherly since Agnes had first gone to him as a patient after the death of her father, more than ten years ago. His hair turned pure white before he was thirty. Every day off, he either worked assiduously on his twenty-foot sportfisher, Hippocratic Boat, which he scraped and painted and polished and repaired with his own hands, or puttered around Bright Bay in it, fishing as though the fate of his soul depended on the size of his catch; consequently, he spent so much time in the salt air and sun that his perpetually tan face was well-wizened at the corners of his eyes and as appealingly creased as that of the best of grandfathers. Joshua applied the same diligence to the preservation of a round belly and a second chin that he brought to the maintenance of his boat, and considering his wire-rimmed eyeglasses and bow tie and suspenders and the elbow patches on his jacket, he seemed to have intentionally sculpted his physical appearance to put his patients at ease, as surely as he had selected his wardrobe for the same purpose. The cemetery had been mown for the holiday. The scent of fresh cut grass grew more intense the longer Agnes met her son's radiant green-blue gaze, until the fragrance became exquisitely sweet. Maria looked stricken when she answered the doorbell, for she intuited that a visit, instead of a call, meant the worst. Rhythmic breathing. Slow and deep. Slow and deep. Per Zedd, the route to tranquility is through the lungs. Confused, Panglo held out his right hand, but Jacob said, "Sorry, no offense, but I don't shake with anyone." Of all the kindnesses that we can do for one another, the most precious of all gifts-time-is not ours to give. Bearing this in mind, Agnes did her best to guide her extended family through its grieving for Harrison and for Jacob, into happier days. Respect must be paid, precious memories nurtured, but life also must go on. Eleven days had passed since Wally stopped three bullets. He still had a little residual weakness in his arms, grew tired more easily than before he'd wound up on the wrong end of a pistol, complained of stiffness in his muscles, and used a cane to keep his full weight off his wounded leg. The rest of the medical care he required, as well as physical rehabilitation, could be had in Bright Beach as well as in San Francisco. By March, he should be back to normal, assuming that the definition of normal included massive scars and an internal hollow space where once his spleen had been. The day before Christmas, along the California coast. Although sun gilded the morning, clouds gathered in the afternoon, but no snow would ease sled runners across these roofs. This didn't work for Junior. Strangely, when he focused on a mental image of any fruit-apple, peach, banana-his thoughts drifted to sex. He became aroused and had no hope of clearing his mind. Sunday morning, when Agnes returned from church, Edom and Jacob joined her for lunch. During the afternoon, Jacob helped her bake seven pies for Monday delivery..after he is rolled onto his back by his father, now, here, roses by the fistful jammed in his face, crushed and ground. In the front seat, Edom and Jacob murmured agreement with the narrator's sentiments. Monday night, Edom and Jacob booked adjoining units in a motel near the hospital. They called Barty's room to give Agnes the phone number and to report that they had inspected eighteen establishments before finding one that seemed comparatively safe. Leavening his tortured voice as best he could with shock and hurt, as though deeply wounded by the need to speak these words, Junior Cain said, "You ... you think I killed her, don't you? That's

crazy."Elsewhere in the cemetery, about 150 yards away, another interment service-with a much larger group of mourners-had begun prior to this one for Naomi. Now it was over, and the people were dispersing to their cars.."We do look somewhat alike," Edom said, shifting his attention to Jacob's left ear.."You better wise up, you tree-humping nitwit," Rudy advised Junior, grabbing the bed railing as if he might tear it off and use it to club his son-in-law senseless..You have the teeth to do it, Junior thought, but he restrained himself from saying it. "This can't be a dead end."Maybe he went a little crazy then. He wouldn't deny a brief, transient madness..In his mind's eye, he saw the answering machine with uncanny clarity. That curious gadget. Sitting atop the scarred pine desk..She looked down at her clutched hands. Made for work, these hands, and always ready to take on any task. Strong, nimble, reliable hands, but useless to her now, unable to perform the one miracle she needed. "Barty's birthday is in eight days. I was hoping. . ."As long as Junior continued to fake sleep, the cop couldn't be absolutely sure that any deception was taking place..From a cutlery drawer, Tom withdrew a knife. The largest and sharpest blade in the small collection..In spite of the bravado of the responses in Junior's unspoken half of the conversation, he was increasingly unnerved by Vanadium. The cop was a lunatic, all right, but he was something more than a mere nut case..Celebration of course, would lead to incarceration and perhaps to electrocution. With Vanadium, the maniac cop, likely to be found lurking under the bed or masquerading as a nurse to catch him in an unguarded moment, Junior had to recover at a pace that his physician would not find miraculous. Dr. Parkhurst expected to discharge him no sooner than the following morning..She was lost in his eyes: She wanted to pass through his eyes as Alice had passed through the looking glass, follow the beautiful radiance that was fading now, go with him through the door that had been opened for him and accompany him out of this rain-swept day into grace..In the execution, he was likewise scrupulous, for he didn't want the grownups to see what Angel saw; he preferred they believe it was sleight of hand-or magic. After the usual moves, he briefly closed his right hand around the coin, then with a snap of his wrist, flung it at Angel, simultaneously distracting with flourishes aplenty..Lipscomb shifted his gaze from the street below to the source of the rain. "Phimie was not gone long, perhaps a minute-a minute and ten seconds..at most-and when she was with us again, it was clear from her condition that the cardiac arrest was most likely secondary to a massive cerebral incident. She was disoriented, paralysis on the right side ... with the distortion of the facial muscles that you saw. Her speech was slurred at first, but then something strange happened. . .That was all right, for she had done the same for Otter's elder sister, and so his parents sent him to her in the evenings. But she taught Otter more than the song of the Creation. She knew his gift. She and some men and women like her, people of no fame and some of questionable reputation, had all in some degree that gift; and they shared, in secret, what lore and craft they had. "A gift untaught is a ship unguided," they said to Otter, and they taught him all they knew. It wasn't much, but there were some beginnings of the great arts in it; and though he felt uneasy at deceiving his parents, he couldn't resist this knowledge, and the kindness and praise of his poor teachers. "It will do you no harm if you never use it for harm," they told him, and that was easy for him to promise them..As though stirred by static electricity, the fine hairs on the backs of Tom's hands quivered, and a current of expectation coursed through him.
