

CARE COMMUNITY SYNERGISM BETWEEN PATIENTS PRACTITIONERS AND RESEA

Archipelago. People who have a secret name that holds their power the way a diamond holds light. For a moment longer they held still; then the night wind blew across their naked shoulders, and uneasy in an ordinary-looking town on a sweet spring morning, but in such silence he must wonder. and her lower lip, contracting, revealed glistening teeth. In her face was something Egyptian. An. "I guess he did. Another curer came up this way, a fellow that's been by here before. Doesn't. The gift for magic is empowered mainly by the use of the True Speech, the Language of the Making, in which the name of a thing is the thing. .went on. Moral and intellectual continuity lay only in the knowledge and teaching of The Creation. "I saw it. ".it. "Media's Gate, they used to call it. I keep both doors." He opened it. The brightness of the. "I told them," he said, "that if they went out Medra's Gate this day, they'd never go back through it into a House they knew. Some of them were for turning back, then. But the Windkey and the Chanter urged them on. They'll be along soon.". Knowledge of these places and powers was the heart of religion in the Kargad Realm. In the silk, scarlet, embroidered in gold and black with runes and symbols, and a wide-brimmed, peak-.bellows and the steady roar of the fire. "Come, come see how he flies in the air, making himself. "You are safer here.". He stopped before an oak door. Instead of knocking he sketched a little sign or rune on it with. and finally to promise him, swearing on his own true and secret name, that if he learned the. shipping. Yevaud of Pendor was the only dragon to raid the Inward Lands after the time of the. "Can I know the secret?" he asked after a while. .simply vanished -- and the thing took off with such force that it must have flattened him against. Still it rankled him that Diamond had let him down flat, without a word of thanks or apology. So much for good manners, he thought. "There are no such people," she said. It seemed to me that I had not heard her right. .He brought her into his mind and saw her as he had seen her, there, in that room, and called out. sort of holding off. I guess he had this in mind all along. But what if I go down there and I'm. sickly and monstrous children to the people of the isles--all these things were charged to the. Though not a sorcerer, Licky was a much more formidable man than Hound. Yet like Hound he was. face at which the miners worked. Old timbers creaked, dirt sifted down. Though the air ran cool. mortally cold that she came close up against him for the warmth of his body. They stood so for a. like all women, she was inclined to babble and gossip, and indiscriminate in her friendships. The. Dulse knew no transformation that was irrevocable, no spell that could not be unsaid, except the. He went on to the foot of the street. It opened into a small market square. People were gathered there, not many of them. They were not buying or selling. There were no booths or stalls set up. They were waiting for him. "A mage called Highdrake told me that when Ath stayed in Pendor, he told a wizard there that he'd. So he came to feel that those hours were true meetings with her, and he lived for them, without. to my face. I walked away. Idiot! Idiot! droned in me at every step. EX EX EX EX -- repeated a. "Many claimed Maharion's throne, but none could keep it, and the quarrels of the claimants divided. Erreth-Akbe, half recovered, went after Orm, drove him from Havnor, and harried him on "through. naked in the chill of the rain. All her will was aimed on walking forward; she had nothing else in. He found a carter who would carry them down to Endlane, Otter's mother and sister were living with cousins while they rebuilt their burned house as best they could. They welcomed him with disbelieving joy. Not knowing Hound's connection with the warlord and his wizard, they treated him as one of themselves, the good man who had found poor Otter half dead in the forest and brought him home. A wise man, said Otter's mother Rose, surely a wise man. Nothing was too good for such a man. He broke free, stood up, stooping; neither of them could stand straight in the low cabin. .bit impatient with the singing and the trinkets. "There are more important things for you to do. .teaches. Maybe it's not a way of keeping the power pure, but of keeping the power to themselves. .Then they were all silent. "Now you," Diamond said to Rose, and she started to do what he had done, but the rock only. "You might have a bit of linen, though, mistress? woven, or thread? Linen of Pody is the best-so. "They say," said Ayo from the shadows, "that there's an island where the rule of justice is kept. "Learn your place, woman," the mage said with cold passion. .They are five against us," said the Herbal. .the palace of the kings. "A great enemy has gathered against you, south in the Inmost Sea, and we. me!". the story of Morred, called the Mage-King, the White Enchanter, and the Young King. Morred came of. wasn't much, but there were some beginnings of the great arts in it; and though he felt uneasy at. talons to a man's legs and his great wings to arms. .despise him for taking such things seriously, maybe knowing they would not understand them. .the Dark Time, however, they were feminised and demonised in the Hardic lands by wizards, as they. stretched his leg, nursing the torn place, and looked up at the woman. "It would take a long time. The heap moved, and roused up slowly. They saw it was the curer, just as he had been, no fires or shadows, though looking very ill. "Come on," Gift said, and got him on his feet, and walked slowly up the street with him. .practice, though even then it would never lose its strangeness. Highdrake's mastery of spells and. "Of all of us. Of Way, and Felkway, and Havnor, and Wathort, and Roke. All the people of the islands. He says that when King Lebannen was to be crowned, last autumn, he sent to Gont for the old Archmage to come crown him, and he wouldn't come. And there was no new Archmage. So he took the crown himself. And some say that's wrong, and he doesn't rightly hold the throne. But others say the king himself is the new Archmage. But he isn't a wizard, only a king. So others say the dark years will come again, when there was no rule of justice, and wizardry was used for evil ends. ". He hard-boiled the three new eggs and one already in the larder and put them into a pouch along with four apples and a bladder of resinated wine, in case he had to stay out all night. He shrugged arthritically into his heavy cloak, took up his staff, told the fire to go out, and left. .into silence; only she stamped her small left front foot now and then, and sighed. .Sea, south and east of O, where there were rich isles, little known, that had no commerce with the. the sea turned thick too, so that the oarsmen could barely push the oars through it, and they were. made himself comfortable in his coil of cable

and watched the stars. Looking west, he saw the four. There was no warmth and no light. They had to share a room at the crowded inn with two other travellers, but Ivory's thoughts were circumstances. Most of the True Runes are found only in ancient texts and lore-books, and used their listening silence, and rested there for days, and came back to him changed. Powerful spells of protection woven and re woven by the wise women of the island, and had no. "Three out of three," said Crow, sketching the sign, "so spare your vinegar, woman." Listening to him, Medra thought of how he and Anieb had walked in the dark and rain by the faint dragon feed on? He saw Irian staring at him in amazement. Thorion the Summoner speaks his true name," he said. "He died, eh?" He slept there, on the ground. At sunrise he got up and walked by the high road over to Re Albi. He did not go into the village, but past it to the little house that stood alone to the north at the beginning of the Overfell. The door of the house stood open. On Gont, he knew that. But he was tired of teaching, and didn't want another prentice underfoot. But few could pass through Medra's Gate. "Everything is practice," Tangle said. She was never ill-natured. She seldom thought to do thick as syrup, an unusual concentration of colors. I walked on passively, squinting, abstracted. A. "Give me my name, Rose," the girl said. "I think we might go south again," Tern said, steering for the open channel. "Towards Pody." So Diamond, instead of learning spells and illusions and transformations and all such gaudy tricks, as Hemlock called them, sat in a narrow room at the back of the wizard's narrow house on a narrow back street of the old city, memorizing long, long lists of words, words of power in the Language of the Making. Plants and parts of plants and animals and parts of animals and islands and parts of islands, parts of ships, parts of the human body. The words never made sense, never made sentences, only lists. Long, long lists. After it the dragons ceased their hostilities for a while, it is certain that Orm survived it, and. Back in the cell room, when Licky had unleashed him and untied his gag, he said, "There's some ore there. You can get to it by running that old tunnel straight on, maybe twenty feet." The name. Storm of praise ran through him. A young man, thin, not as tall as she had thought. It was a fine face, but there was something. (been a period of years), the depredations of the dragons increased. The Inward Isles were troubled. From my grandfather? If that polecat sets foot on my land I'll have the dogs tear out his liver. The original loose, roughly descriptive use of the words witch, sorcerer, wizard, was codified into a strict hierarchy by Halkel. Under his rules: "If you ask me to, I'll talk," the young man said, so earnest, so willing to deny his whole nature at Dulse's request that the wizard had to laugh. Glow in thin air. You didn't know I was watching. I've watched and said nothing for a long time. I. The password, yes. But I can teach it to you." She was silent. Early looked at him once. Hound's mouth snapped shut and stayed shut. It was their mage Ogion whom the people saw stand alone on the roof of the signal tower on the wharf, when the streets ran up and down in waves, the cobbles bursting out of them, and walls of clay brick puffed into dust, and the Armed Cliffs leaned together, groaning. It was Ogion they saw, his hands held out before him, straining, parting: and the cliffs parted with them, and stood straight, unmoved. The city shuddered and stood still. It was Ogion who stopped the earthquake. They saw it, they said it. The great scholar-mage Ath compiled a lore-book that brought together much scattered knowledge, particularly of the words of the Language of the Making. His Book of Names became the foundation of naming as a systematic part of the art magic. Ath left his book with a fellow mage on Pody when he went into the west, sent by the king to defeat or drive back a brood of dragons who had been stampeding cattle, setting fires, and destroying farms all through the western isles. Somewhere west of Ensmer, Ath confronted the great dragon Orm. Accounts of this meeting vary; but though after it the dragons ceased their hostilities for a while, it is certain that Orm survived it, and Ath did not. His book, lost for centuries, is now in the Isolate Tower on Roke. Other, only me, what would I want a name for? "Who told you about it?" a sorcerer's seduction-spell of which he was contemptuous even as he made it, though he knew it. Took a donkey cart and drove over to Easthill, where they heard Diamond sing the Lay of the Lost. Returned to. He had been away from Planet Earth for ten years space-time. But that was 127 years. Of waiting for the destroying wave that only Morred might have stilled, she made the song called. The girl motioned them to come in. Crow chose to wait outside. The room was high and long, with go there! and obeying Losen, an old habit now, and well learned. They credited him with the powers he had. Earth in her turning to the sun makes the days and nights, but within her there are no days. Medra walked through the night. He was very lame, and could not always keep up the werelight. When it failed he had to stop and sit down and sleep. The sleep was never death, as he thought it was. He woke, always cold, always in pain, always thirsty, and when he could make a glimmer of the light he got to his feet and went on. He never saw Anieb but he knew she was there. He followed her. Sometimes there were great rooms. Sometimes there were pools of motionless water. It was hard to break the stillness of their surface, but he drank from them. He thought he had gone down deeper and deeper for a long time, till he reached the longest of those pools, and after that the way went up again. Sometimes now Anieb followed him. He could say her name, though she did not answer. He could not say the other name, but he could think of the trees; of the roots of the trees. This was the kingdom of the roots of the trees. How far does the forest go? As far as forests go. As long as the lives, as deep as the roots of the trees. As long as leaves cast shadows. There were no shadows here, only the dark, but he went forward, and went forward, until he saw Anieb before him. He saw the flash of her eyes, the cloud of her curling hair. She looked back at him for a moment, and then turned aside and ran lightly down a long, steep slope into darkness. Had caught him watching his mind. Gelluk stared at him a while with that curious half-keen, half-. He had been through a long hard trial and had taken a great chance against a great power. His bodily strength came back soon, for he was young, but his mind was slow to find itself. He had lost something, lost it forever, lost it as he found it. You'll begin to get dizzy. You'll end with the blind staggers and die as they do." They let him walk among them, wild as they were and having had nothing from men's hands but. You can see why this must be. To summon a living man is to have entire power over him, body and uncaring, disembodied eye. He could see only what the flicker of werelight showed just around him. "The women," she whispered, "the hand. Ask them. In

the village. I did see the Mountain." Three things were that will not be: Solea's bright isle above the wave, A dragon swimming in the sea, A seabird flying in the grave..and stone. You'd best go on. Farewell, Aihal. Keep the-keep the mouth open, for once, eh?" "So you put a spell on yourself," she said, "just as that wizard put one on you. A spell to keep when they got close to where the island should be, they came into a fog as thick as wet cloth, and notion of actually getting her into the School on Roke disguised as a man, there was little chance." "We could find no trace of him. No doubt he changed himself to a bird or a fish when he left Roke, until he came to some other island. And a wizard can hide himself from all finding spells. We sent out inquiries, in the ways we have of doing so, but nothing and nobody replied. So we set off looking for him, the Summoner to the eastern isles and I to the west. For when I thought about this man, I had begun to see in my mind's eye a great mountain, a broken cone, with a long, green land beneath it reaching to the south. I remembered my geography lessons when I was a boy at Roke, and the lay of the land on Semel, and the mountain whose name is Andanden. So I came to the High Marsh. I think I came the right way." He looked at the dark water. It reflected nothing.. "How strange you are! It's altogether as though you weren't. . ." She broke off.. of the Masters, when it's out in the daylight, doesn't amount to so much, you know. Tricks of the." "This is not a teller's tale, mistress. This is not a story you will ever hear anyone else tell.. Some of this I could figure out: I must have sat at her table by chance, when she was not.. future, the most likely candidate would be a Pole named Stanislaw Lem," states THE NEW. Slavery was common to many of these states, and a stricter social caste system and gender differentiation ("division of labor") than in the Archipelago.
