interrupt their tete-a-tete. I must have committed some impropriety. He looked me up and down, "I've been coming doing business here some ten years," he said, looking up and down. "A man chanted, the ballads sung, often with a percussion accompaniment; professional chanters and there was enough, was all." "Didn't know you were after him. I've been after him a long time. He fooled me." Hound spoke. The clouds darkened. Rain passed through the little valley, falling on the dirt and the grass. Above the clouds the sun was descending the western stair of the sky's bright house. When he unbound him, the boy tried to pretend he was still stone, and would not speak. Early had. "Has it come to this," the Namer said, "that we stand at the edge of the forest Segoy planted and. It was Havnor, his land, where his people were, whether alive or dead he did not know; where Anieb. Banners still flew from the towers of the City of Havnor, and a king still ruled there; the banners were those of captured towns and isles, and the king was the warlord Losen. Losen never left the marble palace where he sat all day, served by slaves, seeing the shadow of the sword of Erreth-Akbe slip like the shadow of a great sundial across the roofs below. He gave orders, and the slaves said, "It is done, your majesty." He held audiences, and old men came and said, "We obey, your majesty." He summoned his wizards, and the mage Early came, bowing low. "Make me walk!" Losen shouted, beating his paralyzed legs with his weak hands. "Because you don't understand a thing. I don't know how to tell you. It's nothing, you. He recognized Hound, though he could not sit up and could barely speak. The old man put his own. were people of the Hand in the Great Port. The sheep, who had been grouped near the stile, were scurrying off, and someone was coming along the path from the Great House. Standing on that hill, Medra had said, "There is a vein of water, just under where I stand, that. Otter felt as if he were being brought back to vivid life from interminable, dreary, dazed half sentience. At the wizards touch he did not feel the horror of the spellbond, but rather a gift of energy and hope. He told himself not to trust this man, but he longed to trust him, to learn from him. Gelluk was powerful, masterful, strange, yet he had set him free. For the first time in weeks Otter walked with unbound hands and no spell on him. rapidly at anyone's approach; at last I found an exit. barn," he said, and he was. could enchant whole populations, bringing all who heard him under his control. So he turned. there maybe a room above the tavern?". Diamond hesitated and said, "No." He looked a question at his father. Silence bowed his rough, thoughtful head. "Who are we," said the Doorkeeper, "that we refuse her without knowing what she is?". "And when he doesn't have any?". I stood there awhile, until I noticed, against the background of some further hallways --. "And if. . .". South of Andanden lies a land where the ashes fell a hundred feet deep when last the volcano spoke. Rivers and streams cut their way seaward through that high plain, winding and pooling, spreading and wandering, making a marsh of it, a big, desolate, waterland with a far horizon, few trees, not many people. The ashy soil grows a rich, bright grass, and the people there keep cattle, fattening beef for the populous southern coast, letting the animals stray for miles across the plain, the rivers serving as fences. Queen Heru, called the Eagle, inherited the throne from her father, Denggemal of the House of Ilien. Her consort Aiman was of the House of Morred. When she had ruled thirty years she gave the crown to their son Maharion. A man with a deep, clear voice spoke: "It's not our judgment that prevails, but the Rule of Roke, which we are sworn to follow." changed with the years. to intrude on her solitude, which daunted him as did the strangeness of the Grove itself. The terrible long way down to the sea, surely. With this wizard on your scent, how are you to go. In a day or two some of Licky's men came asking if anyone had seen or heard tell of the great. "A witchwind coming. Following. Get the sail down." At first he had thought Diamond had a knack such as many children had and then lost, a stray spark. Note on dates: Many islands have their own local count of years. The most widely used dating system in the Archipelago, which stems from the Havnorian Tale, makes the year Morred took the throne the first year of history. By this system, "present time" in the account you are reading is the Archipelagan year 1058. Labby, a light-skinned, flashy-looking fellow, played the double-reed woodhorn. "It's him has to go." Sea, south and east of O, where there were rich isles, little known, that had no commerce with the. never saw a person who was not. . . "I say to." The weatherworker knew his trade, at least. Sea Otter sped south; they met summer squalls and choppy seas, but never a storm or a troublesome wind. They put off and took on cargo at ports on the north shore of O, at Ilien, Leng, Kamery, and O Port, and then headed west to carry the passengers to Roke. And facing the west Ivory felt a little hollow at the pit of his stomach, for he knew all too well how Roke was guarded. He knew neither he nor the weatherworker could do anything at all to turn the Roke-wind if it blew against them. And if it did. Dragonfly would ask why? Why did it blow against them?. off for the Ninety Isles as soon as Tern liked. "I can't. Crow ranted, but at the mere thought that the Book of Names might still exist he was ready to set off for the Ninety Isles as soon as Tern liked. He planned, as soon as they took him out of his cell, to use the old Changers spell of self-. as if expecting to find stilts that would account for my height. He did not say a word. "We do not teach women here," said the Windkey. "You know that." Hearing he was there, the teachers of Roke came, the men and women who were masters of their craft. A young woman now taught that art, as he had taught it to her. destroyed their own cities and fields; sailors sank their ships; and his soldiers, obeying the. I rolled up my sleeve and showed her. "Lord Thorion has returned from death to save us all," the Windkey said, fiercely and clearly. "He will be Archmage. Under his rule Roke will be as it was. The king will receive the true crown from his hand, and rule with his guidance, as Morred ruled. No witches will defile sacred ground. No dragons will threaten the Inmost Sea. There will be order, safety, and peace." She followed the Doorkeeper down a stone passageway. Only at the end of it did she think to turn. erratic force, not to be

Striding along-he could stride, then-with the seawind pushing at. Yet as Dory spoke he saw what the girl saw: a long hill going down into darkness, and across it, on the edge of twilight, a low wall of stones. And as he looked he thought he saw a woman walking along beside the wall, very thin, insubstantial, bone, shadow. But she was not the dying woman in the bed. She was Anieb.. Under Roke's steadily growing influence, wizardry was shaped into a coherent body of knowledge, its use increasingly controlled by moral and political purpose. Wizards trained at the school went to other islands of the Archipelago to work against warlords, pirates, and feuding nobles, preventing raids and forays, imposing penalties and settlements, enforcing boundaries, and protecting individuals, farms, towns, cities, and shipping, until social order was re-established. In the early years they were sent to enforce peace; increasingly they were called on to maintain it. While the throne in Havnor remained empty, for over two hundred years Roke School served effectively as the central government of the Archipelago.. Very slowly they made him understand that one of the women was Anieb's mother, and that he should give Anieb to her to hold. He did so at last, watching to see if she was gentle with his friend and would protect her. Then he followed another woman meekly enough. He put on dry clothing she gave him to put on, and ate a little food she gave him to eat, and lay down on the pallet she led him to, and sobbed in weariness, and slept.. Dulse had been unable to answer at all for a while. Then, stammering, guilty at his ingratitude and incredulous at his obstinacy-"Master, I would stay, but my work is on Gont-I wish it was here, with you-". The spasm passed; Heleth answered, "Inside it. There at Yaved." He pointed to the knotted hills. themselves pure.". "I guess he did. Another curer came up this way, a fellow that's been by here before. Doesn't amount to much that I can see. He did no good to my cow with the caked bag, two years ago. And his balm's just pig fat, I'd swear. Well, so, he says to Otak, you're taking my business. And maybe Otak says the same back. And they lose their tempers, and they did some black spells, maybe. I guess Otak did. But he did no harm to the man at all, but fell down in a swoon himself. And now he doesn't remember any more about it, while the other man walked away unhurt. And they say every beast he touched is standing yet, and hale. Ten days he spent out there in the wind and the rain, touching the beasts and healing them. And you know what the cattleman gave him? Six pennies! Can you wonder he was a little rageous? But I don't say..." She checked herself and then went on, "I don't say he's not a bit strange, sometimes. The way witches and sorcerers are, I guess. Maybe they have to be, dealing with such powers and evils as they do. But he is a true man, and kind.". "We have to finish the work here," he told her, and she looked at him mildly. All animals were. She stood up, almost as tall as he, and as straight. She said nothing for a minute and then spoke out in a high, harsh voice. "Come up on to the hill, Thorion," she said.. "It is. . . so that. . . in order that it be impossible to. . . kill.". spoke.
