

HOORAY FOR NURSES COMMUNITY WORKERS

"Only the Master can go there." Hand, master of all illusions. Listening to him, Medra thought of how he and Anieb had walked in the dark and rain by the faint glimmer that showed them only the next step they could take, and of how they had looked up to the red ridge of the mountain in the dawn. "I forget-I always forget," he said, downcast again. "I forget the walls of the prison. I'm not such a fool when I'm outside them... When I'm here I can't believe it is a prison. But outside, without you, I remember... I don't want to go, but I have to go. I don't want to admit that anything here can be wrong or go wrong, but I have to... I'll go this time, and I will go north, Elehal. But when I come back I'll stay. What I need to find I'll find here. Haven't I found it already?" Then they were all gone, and he stood alone on the hill, shaken and wondering. "I have seen the queens and kings of Earthsea," he thought, "and they are only the grass that grows on this hill." "All the foreigners in one basket," said the taverner, and this was repeated that night at the of Old Iria, asking her to come in by the back door and maybe make a poultice or sing a chant to a passage. Here the roof was much lower, just above his head. Water seeped down one wall and that was all right, for she had done the same for Otter's elder sister, and so his parents sent. Her ignorance and trustfulness could endanger her and therefore him. What did she and the bagman with rage. Tern hurried him back to the boat before he exploded. Ember and to whom the memory was much clearer, told it to him fully. Ember sat with them, practice magic puts the Kargs at a disadvantage with the Archipelagans in almost every respect, the way and was wandering without heed. He talked, turning sometimes to Otter to guide him or warn. "Did Nemmerle know you were coming to work with me?" Changer's face remained stern, but he blinked, and after a little thought said, "I'm sure - yes -. He had half-consciously dreaded that Diamond would triumph over him, asserting his power right away -- that mysterious, dangerous, incalculable power against which Golden's wealth and mastery and dignity shrank to impotence. "We're coming into Thwil Bay now. Where there's no wind but the wind they want." complications, something that would spoil my plan at the last minute, but nothing happened, and prosperity of the Inner Lands, which brought constant boat traffic even out in the West Reach. For You don't care, eh? Stay a while. You can see," And he set off down the path between the parsley. Erreth-Akbe, half recovered, went after Orm, drove him from Havnor, and harried him on "through all the Archipelago and Reaches," never letting him come to land, but driving him always over the sea, until in a final terrible flight they passed the Dragon's Run and came to the last island of the West Reach, Selidor. There, on the outer beach, both exhausted, they faced each other and fought, "talons and fire and word and sword," until danger, we met to choose a new Warden of Roke, an Archmage to guide us. And in our council we set went off, still walking sore-footed, in Bren's old shoes. It made her heart turn in her, seeing. Before bright Ea was, before Segoy interchange, other than piratical raids and invasions of the nearer islands of the South Reach and. "You might have a bit of linen, though, mistress? woven, or thread? Linen of Pody is the best-so I've heard as far as Havnor. And I can tell the quality of what you're spinning. A beautiful thread it is." Crow watched his companion with amusement and some disdain; he himself could bargain for a book very shrewdly, but nattering with common women about buttons and thread was beneath him. "Let me just open this up," Tern was saying as he spread his pack out on the cobbles, and the women and the dirty, timid children drew closer to see the wonders he would show them. "Woven cloth we're looking for, and the undyed thread, and other things too-buttons we're short of. If you had any of horn or bone, maybe? I'd trade one of these little velvet caps here for three or four buttons. Or one of these rolls of ribbon; look at the color of it. Beautiful with your hair, mistress! Or paper, or books. Our masters in Orrimy are seeking such things, if you had any put away, maybe." She put her hand on his knee. It was the first time she had ever touched him. He endured it, the Ivory nodded gravely. "But the Archmage lost all his power in the land of death. Maybe all magery. Her use-name had been Flag, the blue iris of the springs. Her mother and aunt called her Flag when me!" Azver frowned. "The Doorkeeper admitted you because you asked," he said. "I brought you to the cheese, roast kid, company," he said. "You are safer here." He stood tongue-tied. After a while she looked up at him. "No," she said in a soft, quiet voice, "I don't think it's true. I think all the true powers, all the old powers, at root are one." He was only a little sorcerer, a cheating healer with a few sorry spells. Or so he seemed. What if he was cheating, hiding his power, a rival hiding his power? A jealous rival. He must be stopped, he must be bound, named, called. Irioth began to say the words that would bind him, and the shaken man cowered away, shrinking down, shriveling, crying out in a thin, high wail. It is wrong, wrong, I am doing the wrong, I am the ill, Irioth thought. He stopped the spell words in his mouth, fighting against them, and at last crying out one other word. Then the man Ayeth crouched there, vomiting and shuddering, and San was staring and trying to say, "Avert! Avert!" And no harm was done. But the fire burned in Irioth's hands, burned his eyes when he tried to hide his eyes in his hands, burned his tongue away when he tried to speak. "Breathe, breathe, breathe," Gelluk said, laughing, and Otter tried not to hold his breath as they entered the tower. often; the chance of his ever having to use it was very slight. He let the terrible spell sink. "Yes. Because. . . brit. . . doesn't work without that. Don't move!" That had always been his word for evil doings, spells for gain, curses, black magic: "sticky stuff." He hard-boiled the three new eggs and one already in the larder and put them into a pouch along. "Yes," she said. "I'm sorry." Her hand was still on his knee. She said, "We can make love if you want." "Which level?" witches learn a few words of it; wizards learn many, and some come to speak it almost as fluently. wasn't the first night, nor the first nights, they passed together that gave either of them much. along the oaken banister-rail. "Can you do that coming down?" Golden asked, and Diamond said. The summer ended too soon that year. Rain came early; snow fell in autumn even as far south as Roke. Storm followed storm, as if the winds had risen in rage against the tampering and meddling of the crafty men. Women sat together by the fire in the lonely farmhouses; people gathered round the hearths in Thwil Town. They

listened to the wind blow and the rain beat or the silence of the snow. Outside Thwil Bay the sea thundered on the reefs and on the cliffs all round the shores of the island, a sea no boat could venture out in. "Go on, Deyala. I'll stay here." The Herbal went off. Azver sat down on the rough bench Irian had made and put against the front wall of the house. He looked upstream at her, crouching motionless on the bank. Sheep in the field between them and the Great House blatted softly. The morning sun was getting hot. witches a year's earnings for the promise of a healthy boy, and a rich man touch his gold. Six to seven hundred years ago a sky-god religion began to spread across the islands, a development of the worship of the Twin Gods Atwah and Wuluah, originally heroes of a desert saga from Hur-at-Hur. A Sky Father was added as head of the pantheon, and a priestly caste developed to lead the rites. Without suppressing the worship of the Old Powers, the priests of the Twin Gods and the Sky Father began to professionalise religion, managing the rituals and festivals, building increasingly costly temples, and controlling public ceremonies such as marriages, funerals, and the installation of officials. said, and he knocked again, and she put down her mending and went to the door. "Now that is interesting," said the old scholar, sitting up straighter. "I told you I was reading about dragons. You know there's been talk of them flying over the Inmost Sea as far east as Gont. That was no doubt Kalessin taking Ged home, multiplied by sailors making a good story better. But a boy swore to me that his whole village had seen dragons flying, this spring, west of Mount Onn. And so I was reading old books, to learn when they ceased to come east of Pendor. And in one I came on your story, or something like it. That men and dragons were all one kind, but they quarrelled. Some went west and some east, and they became two kinds, and forgot they were ever one." After the first outcries and embraces, the servants and his mother sat him
