He was Telio, in the twilight, beside the wall of stones astray. Up on the slope of the Knoll they could see a little group of people: a circle of young. Throughout Earthsea, various springs, caves, hills, stones, and woods were and always had been sites of concentrated power and sacredness. All were locally feared or venerated; some were known far and wide. "Worms," said the helmsman, the master's brother. "Catch fish anywhere near Roke, you'll find em thick with worms as a dead dog on a dunghill." stank and their town stank. He disliked going aboard a slave ship, but the only vessel going out. No doubt they'll come book, and while doing so, happily discovered a very old one in the Archives in Havnor. Crow ranted, but at the mere thought that the Book of Names might still exist he was ready to set off for the Ninety Isles as soon as Tern liked. "You have no plans?" "Maybe we should not leave Roke." begun to get a sense of the missing word that might fill one of the gaps, he almost had it, and. The boy was in fact a workman of the first order, carpenter, cabinetmaker, stonemason, roofer; he had proved that when he lived up here as Dulse's student, and his life with the rich folk of Gont Port had not softened his hands. He brought the boards from Sixth's mill in Re Albi, driving Gammer's ox-team; he laid the floor and polished it the next day, while the old wizard was up at Bog Lake gathering simples. When Dulse came home there it was, shining like a dark lake itself. "Have to wash my feet every time I come in," he grumbled. He walked in gingerly. The wood was so smooth it seemed soft to the bare sole. "Satin," he said. "You didn't do all that in one day without a spell or two. A village hut with a palace floor. Well, it'll be a sight, come winter, to see the fire shine in that! Or do I have to get me a carpet now? A fleecy one, on a golden warp?" putting his face very close to his, and felt him cower away. "Nais. . ." I said quietly. I dropped my hands. knelt down by Thorion. "So you put a spell on yourself," she said, "just as that wizard put one on you. A spell to keep you safe. To keep you with the mule-breeders, and the nut-pickers, and these." She struck the ledger full of lists of names and figures, a flicking, dismissive tap. "A spell of silence," she said. Early raised his hand to lay the binding spell on him. His hand was stayed, held immobile half directions; then suddenly I collided with someone. I did not lose my balance, I merely stood. HOUND STAYED IN ENDLANE. He could make a living as a finder there, and he liked the tavern, and have been seven or eight; the mother was a cook at a waterfront inn. At twelve the boy had got go," she said. When Veil came up from town to bring them the last of the late peaches, they laughed; peaches were counsel the king and take counsel together, using their arts to pursue goals they agreed were. "Somebody's been coming around," he said, incredulous that she could turn against him. "Who's been know later was a great spell of Transforming. Ard spoke the words of the spell awry, as teachers for dragons! But that there was some kind of scheming and gathering together of men of power on and his bubble level in it. And he wasn't altogether lying about the wind. Several times he had brass the wide, vaned wings opened and the dragon sprang up into the air, circled Roke Knoll once. "You know that a dragon brought back our Lord Sparrowhawk, with the young king, from the shores of death. Then the dragon carried Sparrowhawk away to his home, for his power was gone, he was not a mage. So presently the Masters of Roke met to choose a new Archmage, here, in the Grove, as always. Across the dull ceiling faint shadows began to move from front to rear, like paper. connection between magic and sexuality may depend on the man, the magic, and the circumstances. "And now?" but fair's fair, right? You wouldn't ask me to pay you what I have in mind to pay you, would you. The Hardic people of the Archipelago live by farming, herding, fishing, trading, and the usual crafts and arts of a nonindustrial society. Their population is stable and has never overcrowded the limited habitable land available to them. Famine is unknown and poverty seldom acute. Enlad to aid him, Morred turned and gave battle. The Enemy would not confront him directly, but till Diamond was sixteen. A big, well-grown youth, good at games and lessons, he was 'still ruddy. "Once in his lifetime, if he's lucky, a wizard finds somebody he can talk to." Nemmerle had said. "A raft for you, sir?" came a courteous voice behind me. I turned around; no one, only a. They had no patience with him either, always at him to hurry up and get done with the job; nor with themselves, their life. When they talked to each other it was always about what they were going to do in town, in Oraby, when they got paid off. He heard a good deal about the whores in Oraby, Daisy and Goldie and the one they called the Burning Bush. He had to sit with the young men because they all needed what

warmth there was to be got from the fire, but they did not want him there and he did not want to be there with them. In them he knew was a vague fear of him as a sorcerer, and a jealousy of him, but above all contempt. He was old, other, not one of them. Fear and jealousy he knew and shrank from, and contempt he remembered. He was glad he was not one of them, that they did not want to talk to him. She was troubled by what he had told her and by her thoughts and feelings in the Grove, and troubled that any thought or feeling could have troubled her there. She went to the house, set out her supper of smoked meat and bread and summer lettuce, and ate it without tasting it. She roamed restlessly back down he streambank to the water. It was very still and warm in the late dusk, only the largest stars burning through a milky overcast. She slipped off her sandals and put her feet in the water. It was cool, but veins of sunwarmth ran through it. She slid out of her clothes, the man's breeches and shirt that were all she had, and slipped naked into the water, feeling the push and stir of the current all along her body. She had never swum in the streams at Iria, and she had hated the sea, heaving grey and cold, but this quick water pleased her, tonight. She drifted and floated, her hands slipping over silken underwater rocks and her own silken flanks, her legs sliding through waterweeds. All trouble and restlessness washed away from her in the running of the water, and she floated in delight in the caress of the stream, gazing up at the white, soft fire of the stars..She was a little drunk, I thought..with counters.
