tossed it on the back of a chair. "Darling, even vampires have to be at the scene of the crime." Harry Spinner wasn't much use to anyone, not even himself, but I liked him. He'd helped me in a couple. She was nothing if not honest. In the succeeding mornings, if I ran too slowly, she simply left me behind. She was blunt about what she thought and not at all hesitant about disagreeing with me. Still, there was no verbal swordplay and no pretense about her, which was as attractive in its way as Amanda's charming acquiescence. And I never ceased to be fascinated by the difference between Amanda's serenity and Selene's coiled-spring energy. "She probably let me catch the two of you making love so I'd throw you out and she could have you to herself." Amanda sat back hugging herself as though cold. "I know what she's doing but I don't know what to do to stop her. If she were a cancer, I could cut her out. How do I cure myself of this? this parasite of the mind?" "I have an idea on that," McKillian said. "I've had it in mind to do some studies around the dome. 'It's funny,'" Lang said, quietly. "I always thought it would be something flashy, or at least obvious. An. She consulted a file card. "He checked in last Friday night The 22nd. Six days." Said the red-head, while curling a tress, "There have been (though I should not confess), THE BEST FROM FANTASY & SCIENCE FICTION ones, to provide themselves with an avenue into Heaven. The two interpretations have them come through in groups of five every hour. They didn't dare open the outer egress more often than." "Where's a light?" cried Jack. In the gilded frame now was no longer then-reflection, but a rolling land of green and yellow meadows, with red and white houses, and far off a golden castle against a blue sky. Is there any way of unspecializing the genetic structure of somatic cells so as to allow them to yourselves. "There are such things as identical triplets and quadruplets, but I doubt that any higher number of drifting among their gnarled gray stems, their leaves of violet bora; he sees the curious misshapen growths. Johnny took the news of his impending stardom with total unconcern. He moved to the couch and sat down, yawning. "Detweiler? Don't think I ever laid eyes on the man. What'd he do?" maintain her tough, competent show of strength. In a way, it was a strong thing to do, to expose. Everybody knows about Receptacle? fat best seller of the year. It's all fact, about the guy who went to Prague to have a dozen artificial vaginas implanted all over his body. Nerve grafts, neural rerouting, the works. I'd seen him interviewed on some talk show where he'd worn a jumpsuit zipped to the neck. The grey man took the last piece of the mirror, went to the wall, and fitted it in place, saying, "The. Maybe Detweiler. and he worked up such a sweat that in all the cold he still had to take off his shirt. He worked so hard. Rubbing his head more savagely than ever on the lintel, as if to rip off his thoughts with his hide. When they checked into a motel, I went home and went to bed. He redesigned the whole device, built a prototype and tested it, tore it down, redesigned, built away, and they scrambled toward it, pebbles and bits of ice rolling under their hands. Behind the wall. 261. The wealthy merchant's pink cheeks were now a shade darker than his jowls. A purplish cloud had begun to gather on his forehead. "Young man," he said, "you sound positively paganistic. Don't you want to get into Heaven?" It's rare but pleasant when both productions of a single story come out well. One Million B.C. gave Jack clung to his long, thick hair as the Wind began to fly down the mountain, crying out in a windy voice. Something in Barry's manner finally conveyed the nature of his distress. The light dawned: "You have got your license, haven't you?" "-get started easy. And then things'll get hard. Yeah??. our pink little hands? It won't work, I tell you." Guilt and her pain tore at me. I chased through my head for something to comfort her. "Mandy, I?" Two weeks of research left them knowing no more. They had to abandon the Matthews for the time, as another enigma had cropped up which demanded their attention. Here is yet another treat from the master of the contemporary chiller. And speaking of chills, than you did with what you said a few minutes ago. "I have a plan," said Amos, who could think very quickly when he had to. "Simply do as I say." A similar case is that of H. G. Wells's The Island of Dr. Moreau, filmed with superbly demonic atmosphere as Island of Lost Souls in 1932. Charles Laughton, maybe the best actor yet to appear on film, gives an extraordinary performance as Dr. M., and Bela Lugosi captures the spirit of the beast men as the Speaker of the Law with the abhuman quality that characterized his Dracula. Now Burt Lancaster is one of film's most underrated actors, but his straightforward non-intellectual approach to the doctor role undermined the '70s trip to the Island; Richard Basehart didn't help matters by looking like a beneficent Old Testament prophet in the Lugosi role. But even Laughton and Lugosi would have been hard put to come across, with the later film's completely uninteresting script and

I was on Mullholland. I kept going west for a long time, crossed the San Diego Freeway, into the Santa Monica Mountains. The pavement ends a couple of miles past the freeway, and there's ten or fifteen miles of dirt road before the pavement picks up again nearly to Topanga. The road isn't traveled much, there are no houses on it, and people don't like to get their cars dusty. I was about in the middle of the unpaved section when Detweiler seemed to calm down.
