He stood looking into the poultry yard, considering. The fox had been visiting the orchard lately. But the birds would have to forage if he stayed away. They must take their chances, like everyone else. He opened their gate a little. Though the rain was no more than a misty drizzle now, they stayed hunched up under the henhouse eaves, disconsolate. When she stared at him in sudden incomprehensible challenge he had thought her angry with him. He feared to insult, to offend her. What did she fear? His desire? He knew where the cattle were nearby, and went to them. The sickness was very familiar to him now. He felt it in his hands as a burning, and a queasiness if it was much advanced. Approaching one steer that was lying down, he found himself dizzy and retching. He came no closer, but said words that might ease the dying, and went on..after the Long Dance. The pair took a few steps, a pale, mercurylike ring..The town at the bay's head, Thwil, shared something of the uncanniness of the Knoll and the Grove, for though the raiders had run through it seeking slaves and plunder and setting fires, the fires had gone out and the narrow streets had sent the marauders astray. Most of the islanders who survived were wise women and their children, who had hidden themselves in the town or in the Immanent Grove. The men now on Roke were those spared children, grown, and a few men now grown old. There was no government but that of the women of the Hand, for it was their spells that had protected Roke so long and protected it far more closely now..creatures of the Grove. "I come," he said in his joyous, tender voice, and he strode fearlessly into the raw wound in the earth, a white light playing around his hands and his head. But seeing no slope or stair downward as he came to the lip of the broken roof of the cavern, he hesitated, and in that instant Anieb shouted in Otter's voice, "Tinaral, fall!".in the darkness of the earth. This man is a wise man. He learned the High Arts at the Great House on Roke!". "Was that the Archmage? Truly?". Later he knew he should never have let the boy leave the house. He had underestimated Diamond's willpower, or the strength of the spell the girl had laid on him. Their conversation was in the morning; Hemlock went back to the ancient cantrip he was annotating; it was not till supper time that he thought about his pupil, and not until

he had eaten supper alone that he admitted that Diamond had run away..long, and not meeting his eyes. Like an animal, like a cat, she was, sizing him up but not. So little Diamond grew up in the finest house in Glade, a fat, bright-eyed baby, a ruddy, cheerful boy. He had a sweet singing voice, a true ear, and a love of music, so that his mother, Tuly, called him Songsparrow and Skylark, among other loving names, for she never really did like "Diamond." He trilled and caroled about the house; he knew any tune as soon as he heard it, and invented tunes when he heard none. His mother had the wisewoman Tangle teach him The Creation of Ea and The Deed of the Young King, and at Sunreturn when he was eleven years old he sang the Winter Carol for the Lord of the Western Land, who was visiting his domain in the hills above Glade. The Lord and his Lady praised the boy's singing and gave him a tiny gold box with a diamond set in the lid, which seemed a kind and pretty gift to Diamond and his mother. But Golden was a bit impatient with the singing and the trinkets. "There are more important things for you to do, son," he said. "And greater prizes to be earned." They walked along in the darkness side by side. At last, in a placating, frightened voice, Rose said, "It came so ...". Only a few steps ahead of them now was the place where underfoot, underground, two or three feet down, dark water crept and seeped through soft earth over the ledge of mica. Under that opened the hollow cavern and the lode of cinnabar.. "Irian," he said, and now her name came easily, sweet and cool as spring water in his dry mouth..latest. She had no wish to explore for herself. The peacefulness of the place called for stillness, watching, listening; and she knew how tricky the paths were, and that the Grove was, as the Patterner put it, "bigger inside than outside". She sat down in a patch of sun-dappled shade and watched the shadows of the leaves play across the ground. The oakmast was deep; though she had never seen wild swine in the wood, she saw their tracks here. For a moment she caught the scent of a fox. Her thoughts moved as quietly and easily as the breeze moved in the warm light.. "I spoke your true name. It's not what I thought it would be. And I don't feel easy about it. As. ONE WINTER AFTERNOON on the shore of the Onneva River where it fingers out into the north bight of the Great Bay of Havnor, a man stood up on the muddy sand: a man poorly dressed and poorly shod, a thin brown man with dark eyes and hair so fine and thick it shed the rain. It was raining on the low beaches of the river mouth, the fine, cold, dismal drizzle of that grey winter. His clothes were soaked. He hunched his shoulders, turned about, and set off towards a wisp of chimney smoke he saw far down the shore.
