

LOCO POR MADONNA LA REINA DEL POP

"I spoke your true name. It's not what I thought it would be. And I don't feel easy about it. As if I'd left something unfinished. But it is your name. If it betrays you, then that's the truth of it." Rose hesitated and then spoke less angrily, more coldly: "If you want the power to betray me, Irian, I'll give you that. My name is Etaudis." After a long time she said, clearing her throat, not looking up, "Is it true I do harm being here?".When he was Gelluk's prentice and assistant, he had encouraged his master in the study of the lore of Way, finding himself free while Gelluk was off doting on his quicksilver. But Gelluk's abrupt fate had shaken him. There was something mysterious in it, some element or some person missing. Summoning the useful Hound to help him, Early had made a very thorough inquiry into what happened. Where Gelluk was, of course, was no mystery. Hound had tracked him straight to a scar in a hillside, and said he was buried deep under there. Early had no wish to exhume him. But the boy who had been with him, Hound could not track: could not say whether he was under that hill with Gelluk, or had got clean away. He had left no spell traces as the mage did, said Hound, and it had rained very hard all the night after, and when Hound thought he had found the boy's tracks, they were a woman's; and she was dead.. "No," he said. "I don't know the way."..off for the Ninety Isles as soon as Tern liked..Osskili, spoken in Osskil and two islands northwest of it, has more affinities to Kargish than to Hardic. Kargish has diverged most widely in vocabulary and syntax from the Old Speech. Most of its speakers (like most Hardic speakers) do not realise that their languages have a common ancestry. Archipelagan scholars are aware of it, but most Kargs would deny it, since they have confused Hardic with the Old Speech, in which spells are cast, and thus fear and despise all Archipelagan speech as malevolent sorcery..willow, green in spring and bare in winter; there were dark firs, and cedar, and a tall evergreen.Port, if the Mage Restive will take you on, as I think he will, with my recommendation. He recalled all he could of matters his teacher had spoken of once only and long ago. Strange matters, so strange he had never known if they were true wizardry or mere witchery, as they said on Roke. Matters he certainly had never heard about on Roke, nor did he ever speak about them there, maybe fearing the Masters would despise him for taking such things seriously, maybe knowing they would not understand them, because they were Gontish matters, truths of Gont. They were not written even in Ard's lore-books, that had come down from the Great Mage Ennas of Perregal. They were all word of mouth. They were home truths..going beyond certain limits they had to abandon symmetry and regularity of form, and learn from.All the thoughts he had not been able to think for days and weeks were racing through his head, a storm of ideas and feelings, a passion of rage, vengeance, pity, pride..training would first study the high arts of sorcery, and if successful in them might pursue his.The leaves of the trees spoke, she said, and the shadows could be read. Only in the syntax of the Old Speech, however, and only as spoken or written by a wizard, not as a statement but with intention to act, reinforced by voice and gesture-in a spell-does the word or

But the jealousy in him was like a stinging fire. "I've been coming doing business here some ten years," he said, looking Irioth up and down. "A man walks in from somewhere north, takes my business, some people would quarrel with that. A quarrel of sorcerers is a bad thing. If you're a sorcerer, a man of power, that is. I am. Indeed, to Golden's amazement, Master Hemlock sent back a scrupulous two-fifths of the prenticing-fee. With the packet, which was delivered by one of Golden's carters who had taken a load of spars down to South Port, was a note for Diamond. It said, "True art requires a single heart." The direction on the outside was the Hardic rune for willow. The note was signed with Hemlock's rune, which had two meanings: the hemlock tree, and suffering.. They saw it, they said it.. lions. . . were people of the Hand in the Great Port. Though he had not known of them as a boy, he should. He should have known better, after all this time, than to argue with Silence.. He said nothing. In fact he was at a loss. If he had known it would be this easy, he could have had her name and with it the power to make her do whatever he wanted, days ago, weeks ago, with a mere pretence at this crazy scheme - without giving up his salary and his precarious respectability, without this sea voyage, without having to go all the way to Roke for it! For he saw the whole plan now was folly. There was no way he could disguise her that would fool the Doorkeeper for a moment. All his notions of humiliating the Masters as they had humiliated him were moonshine. Obsessed with tricking the girl, he had fallen into the trap he laid for her. Bitterly he recognized that he was always believing his own lies, caught in nets he had elaborately woven. Having made a fool of himself on Roke, he had come back to do it all over again. A great, desolate anger swelled up in him. There was no good, no good in anything.. Hound sniffed, sighed, nodded.. safest? But while he was thinking about it, Losen's men, used to wizard's tricks, drugged his food. But he said nothing to the boy and nothing to the boy's mother. He was a consciously close-mouthed man, distrustful of visions until they could be made acts; and she, though a dutiful, loving wife and mother and housekeeper, already made too much of Diamond's talents and accomplishments. Also, like all women, she was inclined to babble and gossip, and indiscriminate in her friendships. The girl Rose hung about with Diamond because Tuly encouraged Rose's mother the witch to visit, consulting her every time Diamond had a hangnail, and telling her more than she or anyone ought to know about Golden's household. His business was none of the witch's business. On the other hand, Tangle might be able to tell him if his son in fact showed promise, had a talent for magery... but he flinched away from the thought of asking her, asking a witch's opinion on anything, least of all a judgment on his son.. After a while the Patterner said, "That art, summoning, you know, is very . . . terrible. It is. Where he stood it was not wholly dark. The air moved against his face. Far ahead, dim, small, there was a light that was not werelight. He went forward. He had been crawling for a long time now, dragging the right leg, which would not bear his weight. He went forward. He smelled the wind of evening and saw the sky of evening through the branches and leaves of trees. An arched oak root formed the mouth of the cave, no bigger than a man or a badger needed to crawl through. He crawled through. He lay there under the root of the tree, seeing the light fade and a star or two come out among the leaves.. Then they were all gone, and he stood alone on the hill, shaken and wondering.
