Science fiction is a small country which for years has maintained a protective standards-tariff to encourage native manufactures. Many readers are, in fact, unacquainted with the general canon of English literature or the standards of criticism outside our own small field. Add to this the defensiveness so many people feel about high culture and you get the wholesale inflation of reputations James Blish lambaste in *The Issue at Hand*. Like him, I believe that somebody has to stop handing out stars and kisses: If "great writer" means Charles Dickens or Virginia Woolf (not to mention William Shakespeare), then it does not mean C. S. Lewis or J. R. R. Tolkien, about whom the most generous consensus of mainstream critical opinion is that they are good, interesting, minor authors. At intervals that varied unpredictably the furniture within this living room would rearrange itself, and suddenly you would find yourself face-to-face with a new conversational partner. You could also, for 8 few dollars more, hire a sofa or armchair that you could drive at liberty among the other chairs, choosing your partners rather than leaving them to chance. Relatively few patrons of Partyland exercised this option, since the whole point of the place was that you could just sit back and let your chair do the driving..department store.."I suppose it is," Barry said noncommittally. There was a figure hazily visible through the plastic. At this distance he would have been unable to tell who it was if it weren't for the black face.
