

PEDROS MYSTERY CLUB

Finally sleeping, he had anxiety dreams of being in a public rest room, overcome by urgent need, only to find that every stall was occupied by someone he had killed, all of them vengefully determined to deny him a chance for dignified relief..He would have liked to take Industrial Woman, as well, but she weighed a quarter ton. He couldn't manage her alone, and he dared not hire a day worker, not even an illegal alien, to assist him, and thereby compromise the Pinchbeck van and identity..AFTER SPENDING Wednesday as a tourist, Junior began to look for a suitable apartment on Thursday. In spite of his new wealth, he did not intend to pay hotel-room rates for an extended period..To be useful, anger must be channeled, as Zedd explains with unusually poetic prose in *The Beauty of Rage: Channel Your Anger and Be a Winner* Junior's current predicament would only get worse if he had to telephone Roto-Rooter to extract a musician from the plumbing..Already another contraction racked her, so intense that the pain was not limited to her lower back and abdomen, but seared the length of her spine, like an electric current leaping vertebra to vertebra. Her breath pinched in her chest as though her lungs had collapsed..She herself had been too nervous to eat anything. She'd held the same glass of untasted champagne throughout the evening, clutching it as though it were a mooring buoy that would prevent her from being swept away in a storm..If not for Celestina's slutty little sister, Bartholomew would not exist. No threat. Junior's life would be different, better..Somewhere, he does. Daddy died here, but he didn't die every place I am. it's lonely for me here, but not lonely for me everywhere..And after Phimie was gone ... he still hoped to learn the rapist's name, put him in prison. But then something changed his mind ... oh, maybe two years ago. Suddenly, he wanted to let it go, leave judgment to God. He said if the rapist was as twisted as Phimie claimed, then Angel and I might be in danger if we ever learned a name and went to the police. Don't stir a hornet's nest, let sleeping dogs be, and all that. I don't know what changed his mind..Agnes rubbed noses with him again, kissed him, and rose from the edge of the bed..Celestina expected to be taken to a waiting room, but instead the nun escorted her to surgical prep.. "Joey was, after all, an insurance broker," Vinnie reminded her. "He was going to look out for his family." On this January twilight, as Maria Elena Gonzalez drove south along the coast from Newport Beach, all men of the sea must have been reaching for bottles of rum to celebrate the fruit-punch sky: ripe cherries in the west, blood oranges overhead, clustered grapes dark purple in the east..Junior stepped back and squeezed off two shots, aiming for the lock. One round tore a chunk out of the jamb, but the other cracked through the door, shattering more than wood, and the brass knob wobbled and almost fell out..She found the switch and clicked off the lamp again. "Good-night, young prince." Junior had no idea who the driver of the Buick might be, but he hated the tall lanky son of a bitch because he figured the guy was humping Celestina, who would never have humped anyone but Junior if she had met him first, because like her sister, like all women, she would find him irresistible. He felt that he had a prior claim on her because of his relationship to the family; he was the father of her sister's bastard boy, after all, which made him their blood by shared--progeny..Only two explanations occurred to him. First, bureaucracies slavishly follow the rules even when the rules make no sense. Second, the Ugliest Private Detective in the World, Nolly Wulfstan, was an incompetent dunce..The two bereaved women huddled at one end of the living room, tearful, touching, talking quietly, wondering together if there was any way that each could help the other to fill this sudden, deep, and terrible hole in their lives.. "Oh, that's me, all right. I'm on the FBI's most-wanted list for criminal pie jostling." "Chateau Le Bucks, 1886. We can have a bottle of that or you could buy a new car, and personally I believe thirst comes before transportation." Outside, flames churned to the left and right of the opening. The front of the house was afire..Minutes later, once more in a corridor conference with Dr. Daines, she was forced to temper her new optimism..At eleven o'clock Saturday morning, having just settled in the hotel after arriving from St. Mary's, they were waiting for the SFPD to deliver suitcases of clothes and toiletries that Rena Moller, Celestina's neighbor, had packed according to her instructions. While waiting, the three of them took an early lunch-or a late breakfast-at a room service table in the living room..After the stupid bastards read a newspaper or smoked a few cigarettes, they finally broke down the door. Satisfyingly dramatic: the crack of splintering wood, the crash..Under a declining moon, he fled discreetly three blocks to his Suburban, parked on a parallel street. He encountered no traffic, and on the way, he stripped off the gardening gloves and discarded them in a Dumpster at a house undergoing remodeling..too quiet and too patient to be the living-dead incarnation of a murdered wife. This was a predatory silence, an animal cunning, not a supernatural hush. This was the elegant stillness of a panther in the brush.. "Yes. More about that later, just let me make it clear that an interest in physics doesn't make me a physicist. Even if I were, I couldn't explain quantum mechanics in an hour or a year. Some say quantum theory is so weird that no one can fully understand all its implications. Some things proven in quantum experiments seem to defy common sense, and I'll lay out a few for you, just to give you the flavor. First, on the subatomic level, effect sometimes comes before cause. In other words, an event can happen before the reason for it ever occurs. Equally odd ... in an experiment with a human observer, subatomic particles behave differently from the way they behave when the experiment is unobserved while in progress and the results are examined only after the fact-which might suggest that human will, even subconsciously expressed, shapes reality." "Last I noticed, his car was out. Let me check." Sparky put down his phone and went to look in the garage. When he returned, he said, "Nope. Still out. When he parties, he usually parties late." Yet he didn't fault himself for a lack of sensitivity. He'd met this woman only once before. He wasn't emotionally invested in her as he had been in sweet Naomi..When he heard the snick of the lock being disengaged, he rammmed into the men's room..Junior worried that he might not locate the correct Dumpster among the many. Yet he didn't switch on the flashlight, suspecting that he would be better able to find his way if the conditions of darkness and fog were exactly as they had been

earlier. In fact, this proved to be the case, and he instantly recognized the hulking Dumpster when he came upon it..When the attorney finally came on the line, he sounded put-upon, as though Junior were the equivalent of a troublesome toe that he would like to shoot off..AFTER THE ENCOUNTER with the quarter-spitting vending machines, Junior wanted to kill another Bartholomew, any Bartholomew, even if he had to drive to some far suburb like Terra Linda to do it, even if he had to drive farther and stay overnight in a Holiday ay Inn an eat steam-table food off a buffet crawling with other diners' cold germs and garnished with their loose hairs.."Yeah, but I've been thinking about that. If he feels some kind of responsibility ... then why did he ever represent Cain in the first place?".The investigator's suite-a minuscule waiting room and a small office-lacked a secretary but surely harbored all manner of vermin..Indeed, subconsciously, she had known that Nella was gone since receiving the call at 4:15 this morning. When the old woman had finished what she needed to say, the silence on the line had been eerily perfect, without one crackle of static or electronic murmur, unlike anything Celestina had ever heard on a telephone before..Draped across his midsection, the terrible cold weight had chilled his flesh; but now his bone marrow prickled with ice at the thought of the birthmarked detective sitting silently in the dark, watching. Junior would have preferred dealing with Naomi, dead and risen and seriously pissed, rather than with this dangerously patient man..He and the homicide detective had been friends for almost thirty years, since Max had been a uniformed rookie on the SFPD and Vanadium had been a young priest freshly assigned to St. Anselmo's Orphanage here in the city. Before choosing police work, Max had contemplated the priesthood, and perhaps back then he had sensed the cop-to-be in Tom Vanadium..He was having difficulty focusing his attention on the problem at hand. Through his mind, odd and disconnected thoughts rolled like slow, greasy, eye-of-the-hurricane waves on an ominous sea..Edom drove, happy to assist Agnes. He was happier still that he didn't have to make the pie deliveries alone..This didn't seem strange to him. Among the many things that no longer mattered were the concepts of distance and time..While Angel continued her relentless interrogation of Paul Damascus, Tom joined her mother in front of the large window at the end of the room farthest from the dinner table..Letting go of Maria, lowering her hand to her heart, Agnes said, "I want to see him." After making the sign of the cross, Maria said, "They must to have kepted him in the eggubator until he is not dangerous. When the nurse comes, I will make her to tell me when the baby is to be safe. But I can't be leave you. I watch. I watch over.".The customers were in a mood, most of them grumbling about their ailments. Others complained about the dreary weather, the increasing number of kids zooming along sidewalks on these damn new skateboards, the recent tax increases, and the New York Jets paying Joe Namath the kingly sum of \$427,000 a year to play football, which some saw as a sign that the country was money-crazy and going to Hell..Seeing her, Joey leaped up front his armchair again. He managed to hold on to his book this time, but he stumbled into the footstool and nearly lost his balance..Sliding Victoria's chair away from the table, he turned her to face him. He adjusted her body so that her head was tipped back and her arms were hanging slack at her sides..The night was holding its breath again, the previous breeze now pent up in the breast of darkness..A knife already lay on the counter nearby. He used it to slice four pats of butter, yellow and creamy, each half an inch thick, off the end of the stick..Paul checked the back of the Suburban, since he fancied himself the wagonmaster. He wanted to be sure that the goods were loaded in such a way that they were unlikely to slide or be damaged. "Packed tight. Looks just fine," he declared, and closed the tailgate door..The cop had unzipped the top of her jogging suit and pulled up the roomy T-shirt..Barty had never been instructed in the rules of grammar, but had absorbed them as the roots of Edom's roses absorbed nutrients. "Sure. Does and is.".Three and a half days had passed since he'd pushed his wife off the tower, and in that time he'd had no real fun. He was gregarious by nature, never one to turn down a party invitation. He liked to laugh, to love, to live, but he couldn't enjoy life when he must remember at all times to appear bereft and to keep sorrow in his voice.. "Maybe I won't have to try as hard as I think, because you make it so easy, Barty.".He missed Naomi. She'd always known exactly the right thing to say or do, improving his mood with a few words or with just her touch, when he was feeling down..Barty wanted to hug her. He did hug her. He hugged Angel, too. He hugged Tom Vanadium..Late Thursday, following a nine-hour session with Hisscus, Nork, and Knacker, Magusson--negotiating in conjunction with the Hackachak counsel-had indeed reached acceptable terms. Kaitlin Hackachak would receive \$250,000 for the loss of her sister. Sheena and Rudy would receive \$900,000 to compensate them for their severe emotional pain and suffering; this allowed them to undergo a lot of therapy in Las Vegas. Junior would receive \$4,250,000. Magusson's fee was twenty percent prior to trial-forty percent if a settlement had been reached after the start of court proceedings-which left Junior with \$3,400,000. All payments to plaintiffs were net of taxes..Tom Vanadium's uninflected but curiously hypnotic voice, his pensive manner, his gray eyes so beautiful in that fractured face, his air of measured melancholy, and his evident intelligence gave him a presence that was simultaneously as solid as a great mass of granite and yet otherworldly..To see his newborn baby girl, Barty shared the sight of other Bartys, and he so adored this little wrinkled Mary that he sustained his vision all day, until a thunderous migraine became too much to bear and a sudden frightening slurring of speech drove him back to the comfort of blindness..From time to time, customers had crossed the cocktail lounge to drop folding money into a fishbowl atop the piano, tips for the musician. A few had requested favorite -tunes..The paramedic pumped the inflation cuff of the sphygmomanometer, and Junior's blood pressure was most likely high enough to induce a stroke, driven skyward by the thought that Naomi's love had been a lie..Celestina stared out for a moment, and then turned her head to look at Tom, with both the shade of the night and the sparkle of the metropolis still captured in her eyes. "What was that all about?".Junior closed his eyes at once and let his jaw sag, breathing through his mouth, feigning sleep..The next thing he knew, he was at the kitchen sink, turning off the water, which he couldn't remember having turned on. He appeared to have washed the bloody candlestick-it was clean-but he had no recollection of this bit of housekeeping..As soon as he was alone,

however, Junior yearned for the nurse to return. Alone, he felt vulnerable, threatened. With a bark of pain, chest to chest with defeat, the killer was borne downward by the fragrant weight, in a clink and clatter of brass handles. Wally's help, not just with the apartment, but with his time and love, had made an incalculable difference. The street in front of the gallery was as flooded by a sea of fog as the alleyway at the back. The headlights of passing traffic probed the gloom like beams from deep-salvage submersibles at work on the ocean floor. Indeed, Junior suspected that they might be here at Vanadium's urging. The cop would be interested in determining how avaricious the mourning husband would prove to be when presented with the opportunity to turn his wife's cold flesh into cash. The infant Bartholomew was here in San Francisco. He must be found. He must be dispatched. By the time Junior devised a plan of action to locate the child, he was so hot with anger that he was sweating, and he stripped off one of his two pairs of briefs. "You'd never cheat me. I know you. We'd have Christmas twice a year and parties for half birthdays." "Bullpoop might not be what they say, but it's the worst that we say. And in fact, in this house, bulldoody is preferred." And suddenly Celestina believed that Bellini was a cop, not because his voice contained such authority, but because her heart told her that the time had come, that the long-anticipated danger had at last materialized: the dark advent that Phimie had warned her about three years ago. Bolting up from the couch-"Mom, are you there?"--she turned to Tom, her face collapsing in a ghastly expression. Both the red and the white wines were too cheap for Junior's taste' so he drank Dos Equis beer and got two kinds of high by inhaling enough secondhand pot smoke to cure the state of Virginia's entire annual production of hams. Among the two or three hundred partiers, some were tripping on some exhibited the particular excitability and talkativeness typical of cokeheads, but Junior succumbed to none of these temptations. Self-improvement and self control mattered to him; he didn't approve of this degree of self indulgence. An elderly Negro gentleman answered the door. His hair was such a pure white that in contrast to his plum-dark skin, it appeared to glow like a nimbus around his head. With his equally radiant goatee, his kindly features, and his compelling black eyes, he seemed to have stepped out of a movie about a jazz musician who, having died, was on earth once more as someone's angelic guardian. And the mills of capitalism provide them. Supply meets demand. Fantasy becomes a commodity, an industry. Glass in the door next to Agnes cracked, dissolved. Pebbly blacktop like a dragon flank of glistening scales hissed past the broken window, inches from her face. Most of these firearms were loaded and ready for use, but five remained in their original boxes, in the back of her bedroom closet. Evidently, considering the original bill of sale taped to each of the five boxed handguns, she must have acquired all the weapons legally. Junior had left the front door locked, because if unlocked, it would look as though he had wanted to facilitate their entry, and it would make them suspicious of the whole scenario. Even though the detective was on the wrong track, Junior was beginning to feel aggrieved. As any good citizen, he was willing, even eager to cooperate with responsible policemen who conducted their investigation by the book. This Thomas Vanadium, however, in spite of his monotonous voice and drab appearance, gave off the vibes of a fanatic. It wasn't as if this was Junior's first encounter with a dead body. In the past few years, he'd become as comfortable with the deceased as any mortician might be. They were as unremarkable to him as cupcakes were to a baker. Instead, as he settled into the offered chair, he withdrew a picture of Perri from his wallet. It was an old black-and-white school photograph, slightly yellow with age, taken in 1933, the year he'd begun to fall in love with her, when they were both thirteen. He slid his plate aside. From a pocket, he withdrew a quarter, which always served him as well with children as with murderers. At worst, Vanadium might begin to wonder if Junior had a link to Seraphim, might uncover the physical-therapy connection, and in his paranoia, might erroneously conclude that Junior had something to do with her traffic accident. That was nuts, of course, but the detective was evidently not a rational man. hearts represented either a rival in love or a lover who would betray an enemy who would deeply wound the heart. The knave of diamonds was someone who would cause financial grief. The knave of clubs was someone who would wound with words: one who libeled or slandered, or who assaulted you with mean-spirited and unjust criticism. Agnes hadn't asked him to keep his strange feat a secret from his uncles. In truth, she had come home in such a curious state of mind that even as she'd worked with Jacob to prepare dinner and even as she'd overseen Edom's setting of the table, she hesitated to tell them what had happened on the run from Joey's grave to the station wagon. She fluctuated between guarded euphoria and fear bordering on panic, and she didn't trust herself to recount the experience until she had taken more time to absorb it. Barty approached stair climbing as a mathematical problem, calculating the precise movement of each leg and placement of each foot necessary to successfully negotiate the obstacle. He proceeded less slowly on the next three steps than he had on the first three, and thereafter he ascended with growing confidence, pumping his legs with machinelike precision. Her shaking threatened her composure. She was Barty's mother and father, his only rock, and she must always be strong for him. She clenched her teeth and tensed her body and gradually quieted the tremors by an act of will. Paul sat by himself, at the far end of the restaurant from them. He ordered orange juice and waffles. Over the following hour, as Walter Panglo guided Jacob through the planning of the funeral, Jacob recounted the gruesome details of numerous airliner crashes, shipwrecks, train collisions, coal-mine disasters, darn collapses, hotel fires, nightclub fires, pipeline and oil-well explosions, munitions--plant explosions..... "All right," Agnes said, and as she voiced her acceptance, she was shivered by a sudden fear for which she couldn't at once identify a cause. Pity warmed the physician's ascetic face. "You loved your wife very much, didn't you?" The moment he had seen the building in which Nolly maintained an office-an aged three-story brick structure in the North Beach district, a seedy strip club occupying the ground floor-Junior knew he'd found the breed of snoop he needed. The detective was at the top of six flights of narrow stairs-no elevator-at the end of a dreary hallway with worn linoleum and with walls mottled by stains of an origin best left unconsidered. The air smelled of cheap disinfectant, stale cigarette smoke, stale beer, and dead hopes. "He worked in your shipyard, your highness." Losen liked to be called by kingly

titles..The phone rang at 3:20 in the afternoon, just after he switched off the radio in disgust. Sitting in the breakfast nook, the Oakland telephone directory open in front of him, he almost said, Find the father, kill the son, instead of, "Hello." "Thursday it is," he said, clearly delighted to be receiving only a third of the fair-market rental from his apartment..One of the coin seekers knocked against Junior, jarring him loose of his paralysis, but when he stumbled out of the line of fire of the second vending machine, a third machine shot quarters at him..Unable to speak, the girl kissed her and then gently placed her head against Agnes's breast, capturing forever in memory the pure sound of her heart..Something was due to happen in this peculiar, extended, almost casual haunting under which he had suffered for more than two years, since finding the quarter in his cheeseburger. While all around him in the streets, people bustled in good cheer, Junior slouched along in a sour mood, temporarily having forgotten to look for the bright side..Edom would have judged this a perfect day-except for the earthquake weather. He was convinced that the Big One would bring the coastal cities to ruin before twilight..Initially, the Pacific could not be seen beyond an opaque lens of fog, Yet later, when the mist retreated, the sea itself became a portent of sightlessness: Spread flat and colorless in the morning light, the glassy water reminded her of the depthless eyes of the blind, of that terrible sad vacancy where vision is denied..She shivered, and Edom, thinking that she had caught a chill ripped off his suit jacket and draped it over her shoulders.."Nonsense," Agnes breezed on, "it's no imposition. You'll be a great help with my baking, the pie deliveries, all the work that I put aside during Barty's surgery and recovery. It'll either be fun, or I'll wear you down to the bone, but either way, you won't be bored. I've got two extra rooms. One for Celie and Angel, and one for Grace. When your Wally arrives, we can move Angel in with Grace, or she can bunk with me."..Having been an object of Thomas Vanadium's fixation, Junior felt fortunate to have survived. He shuddered.."You may be eating yourself into an early grave, Vinnie, but poor Jacob has murdered his own soul, and that's infinitely worse."
