The scream continued, hurting my ears. Rips appeared in the shirt and a small misshapen arm poked out briefly. I could only stare, frozen. The shirt was ripped to shreds. Two arms, a head, a torso came through. The whole thing ripped its way out and fell onto the couch beside the boy. Its face was twisted, tortured, and its mouth kept opening and closing with the screams. Its eyes looked uncomprehendingly about. It pulled itself along with its arms, dragging its useless legs, its spine obviously broken. The error is that all proofs must be of the "hard" kind, i.e., cut-and-dried and susceptible of presentation in syllogistic form. An acquaintance with the modern philosophy of science would disabuse people of this notion; even a surprising amount of scientific proof is not of this kind. As philosophers since Plato have been pointing out, aesthetic and moral matters are usually not susceptible of such "hard" proof.. "But how did the remains get so far below ground?" Ralston asked.
