To Rose's lips Diamond's face was smooth and full as a plum, with just a hint of prickliness above the lip and jawline, where he had taken to shaving recently. To Diamond's lips Rose's face was soft as silk, with just a hint of grittiness on one cheek, which she had rubbed with a dirty hand. Thank you," she said. "I was cold."The name and office of archmage were invented by Halkel, and the Archmage of Roke was a tenth Master, never counted among the Nine. A vital ethical and intellectual force, the archmage also exerted considerable political power. On the whole this power was used benevolently. Maintaining Roke as a strong centralising, normalising, pacific element in Archipelagan society, the archmages sent out sorcerers and wizards trained to understand the ethical practice of magic and to protect communities from drought, plague, invaders, dragons, and the unscrupulous use of their art..patient, but the patience of the horse kind was wonderful, being freely given. "Our problem is with men," Veil said, "if you'll forgive me, dear brother. Men are of more account to other men than women and children are. He treasured her rustic sayings of that kind. Sometimes she frightened him, and he resented it. His dreams of her were never of her yielding to him, but of himself yielding to a fierce, destroying sweetness, sinking into an annihilating embrace, dreams in which she was something beyond comprehension and he was nothing at all. He woke from those dreams shaken and shamed. In daylight, when he saw her big, dirty hands, when she talked like a yokel, a simpleton, he regained his superiority. He only wished there were someone to repeat her sayings to, one of his old friends in the Great Port who would find them amusing. ""I have the cheese money,"" he repeated to himself, riding back to Westpool, and laughed. "I do indeed," he said aloud. The black mare nicked her ear..
