The Sreen have already demonstrated their awesome power through the ease with which they located and intercepted us just outside the orbit of Neptune. Their vessel is incomprehensible, a drupelet-cluster of a construct which seems to move in casual defiance of every law of physics, half in normal space, half in elsewhere space. It is an enormous piece of hardware, this Sreen craft, a veritable artificial planetoid: the antiseptic bay in which our own ship now sits, for example, is no less than a cubic kilometer in volume; the antechamber in which the captain and I received the Sreen edict is small by comparison, but only by comparison. Fallows usually replied that he had grown disillusioned by the spectacle of the world steadily rearming itself toward the same level of insanity that had preceded the devastation of much of North America and Europe and the end of the Soviet empire in the brief holocaust of 2021, and that he had left it all behind to seek a new start somewhere else.
