"All the thoughts he had not been able to think for days and weeks were racing through his head, a fly to Roke. Or swim, or sail, or come in any way at all. So we must ask what brought you here." "I have work here," he said..to practice and lead to no good thing..He came through the halls and stone corridors to the inmost place, the marble-paved courtyard of wisdom," said the Archmage. He looked at Emer again. "May he stay here, mistress? Is that your study with him in South Port for a year, or perhaps longer." "my honor and thanks to you. May your heart and hearth know peace," and he made a gesture that left. "No, no, no. Sul can handle it. Stay home and have your party. You've been working hard. No, it had become a habit after Silence left, he thought, with the bit of his mind that went. Hemlock was 10th to practice any of the lesser arts of magic. He did not put out a finding spell, as any sorcerer might have done. Nor did he call to Diamond in any way. He was angry; perhaps he was hurt. He had thought well of the boy, and offered to write the Summoner about him, and then at the first test of character Diamond had broken. "Glass," the wizard muttered. At least this weakness proved he was not dangerous. Some talents were best not left to run wild, but there was no harm in this fellow, no malice. No ambition. "No spine," said Hemlock to the silence of the house. "Let him crawl home to his mother."..she went about the house. He held the wizard's letter and reread the message and the two runes offering him something. Then she was gone.. "But -" Irian said, and stopped.. famous wizard." "go tell him that, if you like!" And so on. Old Daisy went back to her kitchen and old Coney went. "Nais. . ." "I think Irian of Way may have come to us seeking not only what she needs to know, but also what we need to know." It may be that Segoy is a name for the Earth itself. Some think all dragons, or certain dragons, or certain people, are manifestations of Segoy. All that is certain is that the name Segoy is an ancient respectful nominative formed from the Old Hardic verb seoge, "make, shape, come intentionally to be." From the same root comes the noun esege, "creative force, breath, poetry."..since the North Reach is isolated and thinly populated, and the Kargad people have held themselves..The boy shook his head at each question. He held the wizard's letter and reread the message and the two runes many times. The cold and sluggish mind that had been born in him that morning down in the shallows accepted the lesson. No magic. Never again. He had never given his heart to it. It had been a game to him, a game to play with Darkrose. He had to regain it all, to go through it all, searching. Over and over he stood in that tower room and looked at the woman, and she looked at him. Over and over he walked through the little valley, through the dry grass, through the wizard's fiery visions, with her. Over and over he saw the wizard fall, saw the earth close. He saw the red ridge of the mountain in the dawn. Anieb died while he held her, her ruined face against his arm. In such discussions they worked out the names that ever since have been given to the masteries: finding, weather-working, changing, healing, summoning, patterning, naming, and the crafts of illusion, and the knowledge of the songs. So well in hand did Early have Losen's men that within two days the great fleet set forth from Havnor, gathering its tributaries on the way. Eighty ships sailed past Ark and Ilien on a true and steady magewind that bore them straight for Roke. Sometimes Early in his white silk robe, holding a tall white staff, the horn of a sea beast from the farthest North, stood in the decked prow of the lead galley, whose hundred oars flashed beating like the wings of a gull. From the vile Red Mother is born the Allking. From the spittle of a dying slave is made the silver Seed of Power." But Hopeful, sailed and steered by two young sorcerers from the Hand of Havnor, brought Medra safe. He spent the whole afternoon in confusion, angry.
